International Mail Manual (IMM)

**Transmittal Letter
Issue, 3, 7-4-85**

A. PURPOSE

The International Mail Manual (IMM) sets forth the policies, regulations, and procedures which govern the international mail services provided to the public by the U.S. Postal Service.

B. EXPLANATION

Issue 3 replaces Issues 1 and 2 of the IMM. It contains the new international postal rates which became effective February 17, 1985, and all revisions published in the Postal Bulletin through July 4, 1985. Items published after July 4, 1985 are effective, but have not been incorporated into Issue 3.

Issue 3 incorporates major changes in organization, format, and location of information. Major changes or new features include:

1. The chapters have been revised, and certain sections rewritten for clarity.
2. Separate Individual Country Sheets for Postal Union Mail and Parcel Post have been combined into one section. Information in the Individual Country Listings (ICLs) has been standardized and referenced.
3. Postage rate tables for each class of mail have been reformatted. The new format shows air rates on the left and surface rates on the right.
4. All summary tables have been eliminated. The information that was contained in the tables has been incorporated into the appropriate chapters.
5. An Appendix has been added which contains the following:
 - Appendix A—World Map Index
 - Appendix B—Index of Localities
 - Appendix C—Conversion Table—Dollars to Gold Francs (GFR) and to Special Drawing Rights (SDR).
 - Appendix D—Express Mail International Service (EMIS) Country Listings.
 - Appendix E—International Surface Air Lift Network Countries and Rates (ISAL).
6. The Contents and Index have been completely revised.

C. DISTRIBUTION

The IMM is distributed to all postal facilities.

D. REQUISITIONS

CHAPTER 1

INTERNATIONAL MAIL SERVICES

110 General Information

111 Scope

This manual sets forth the conditions and procedures for the preparation and treatment of mail sent from the United States to other countries and the treatment of mail received from other countries. Its counterpart in the domestic mail service is the Domestic Mail Manual (DMM). Cross-references to the DMM are provided wherever domestic conditions and procedures apply to the preparation or treatment of international mail.

112 Mailer Responsibility

Regardless of any statement contained in this manual or the statements of any employee of the United States Postal Service, the burden rests with the mailer to ensure that he has complied with the prescribed laws and regulations governing domestic and international mail, both those of the USA and those of the destination country.

113 Individual Country Listings (ICLs)

Individual Country Listings provide information about conditions of mailing, postage rates, and special services for each country. ICLs are arranged alphabetically. Most subtitles are followed by a chapter citation in parenthesis.

114 Availability

Customers may purchase this manual from:

.31 Postmasters, regional offices, and other field units of the Postal Service may reply directly to the inquiries and engage in other necessary correspondence with individuals and firms in other countries.

.32 A customer's address may not be given out without the customer's consent.

120 Preparation for Mailing**121 Packaging—Sender's Responsibility**

It is the responsibility of the sender to prepare items and to address them clearly and correctly. In preparing items for mailing, the sender must (1) use strong envelopes or durable packaging material, and (2) consider the nature of the articles being mailed and the distance they must travel to reach the addressee.

See DMM 121 for detailed instructions.

122 Addressing**122.1 Destination Address**

a. At least the entire right half of the address side of the envelope, package, or card should be reserved for the destination address, postage, labels, and postal notations.

b. Addresses must be printed in ink or typewritten. Pencil is unacceptable.

c. The name and address of addressee and sender must be written legibly with Roman letters and Arabic numbers all placed lengthwise on one side of the item. For parcels, addresses should also be written on a separate slip enclosed in the parcel.

d. Addresses in Russian, Greek, Arabic, Hebrew, Japanese, or Chinese characters must bear an interline translation of the names of the post office, and country of destination in English. If the English translation is not known, the foreign language words must be spelled in Roman characters (print or script).

e. Mail may *not* be addressed to a person in one country "in care of" a person in another country.

f. The name of the sender and/or addressee may *not* be in initials except where they are an adopted trade name.

g. Mail may *not* be addressed to *Boxholder* or *Householder*.

h. The house number and street address or box number must be included when mail is addressed to towns or cities.

i. The address of items sent to General Delivery (in French, *Post Restante*) must indicate the name of the addressee. The use of initials, figures, simple given names, or fictitious names is not permitted on articles addressed for general delivery.

j. The bottom line of the address must show only the country name, written in full (no abbreviations) and in capital letters. For example:

Mr. Thomas Clark
117 Russell Drive
London W1P 6HQ
ENGLAND

Exception: to Canada, either of the following address formats may be used when the postal delivery zone number is included in the address:

Ms. Helen Saunders
1010 Clear Street
Ottawa On K1A 0B1
CANADA

Ms. Helen Saunders
1010 Clear Street
Ottawa On Canada
K1A 0B1

122.2 Return Address

The complete address of the sender, including ZIP Code, must be shown in the upper left corner of the address side of the envelope, package, or card. It must be located so that it does not affect either the clarity of the address of destination or the application of service labels and notations (postmarks, etc.). Unregistered items bearing a return address in another country are accepted only at the sender's risk.

123 Customs Forms Required**123.1 Postal Union Mail****.11 General**

a. Two customs forms, Form 2976, *Customs-Douane C1*, and Form 2976-A, *Customs Declaration C2*, are used on dutiable letter packages, dutiable printed matter, and all small packets. These forms are not, under any circumstances, to be used on parcel post packages, nor are parcel post Customs forms to be used on Postal Union mail.

b. Certain other forms required by nonpostal export regulations are described in Chapter 5.

.12 Form 2976 (Green), Customs Label

The green adhesive Customs label, Form 2976, *Customs-Douane C1*, must be completed by the sender and affixed to the address side of each letter or letter package containing dutiable merchandise, each package of dutiable printed matter, and each small packet.

.13 Form 2976-A, Customs Declaration

a. Form 2976-A, *Customs Declaration C2*, must be completed by the sender and be inserted inside Postal Union mail items when:

(1) the contents exceed \$120 in value, or

(2) the sender does not want a description of the contents to be displayed on the outside of the item.

b. Where Form 2976-A is used, the sender must still affix the upper portion of the Form 2976 Customs label to the wrapper. The lower portion may be removed by tearing or cutting along the dotted line.

.14 Required Description

Sender must provide on the Customs declaration a complete and accurate description, in English, of the contents of the item, even if the item contains a gift or sample. General descriptions are not acceptable.

123.2 Parcel Post**.21 General**

.211 All international parcels must bear a Customs declaration completed by the mailer. For this purpose two types of customs forms are used: Form 2966-A, *Parcel Post Customs Declaration* (single adhesive-backed label) and Form 2966-B, *Parcel Post Customs Declaration and Dispatch Note* (three-part document). The choice of Customs document is governed by the regulations of the destination country. Under no circumstances are parcel post Customs forms to be used on Postal Union mail, nor are Postal Union mail Customs forms to be used on parcel post.

.212 Certain other forms required by nonpostal export regulations are described in Chapter 5.

.22 Form 2966-A and Form 2966-B, Customs Declarations

.221 Preparation by Accepting Clerk

a. Give the mailer a Form 2966-A, *Customs Declaration*, or Form 2966-B, *Parcel Post Customs Declaration and Dispatch Note*, depending on the requirements of the destination country. (See Customs Required in Individual Country Listings.)

b. Inform the mailer that the declaration must be printed in ballpoint pen or typewritten. Declarations already completed in pencil, however, must be accepted.

c. Instruct the mailer to complete the declaration legibly, and accurately. Failure to do so may cause delay or inconvenience to the addressee. Moreover, a false, misleading, or incomplete declaration may result in the seizure or return of the parcel. The U.S. Postal Service assumes no responsibility for accuracy of information the mailer enters on the declaration.

d. After the declaration has been completed by the mailer, enter the weight of the parcel and the amount of postage. For parcels mailed by government agencies pursuant to 144.1, enter the words *OFFICIAL* or *OFF. PD.* in lieu of the amount of postage.

e. If the parcel is to be insured, enter insured number and insured value in the appropriate space(s). (See 324.2 for other markings and endorsements for insured parcels).

f. Postmark and initial the form in the appropriate place(s) and return the declaration to the mailer for affixing.

.222 Preparation by Sender

a. The sender must complete a form 2966-A, *Customs Declaration* (single adhesive-backed label) for each parcel sent to a country that requires one Customs declaration. If the country of destination requires multiple Customs declarations, the sender must complete Form 2966-B, *Parcel Customs Declaration and Dispatch Note* (three-part Customs document).

b. Customs declaration Forms 2966-A and 2966-B, whichever is applicable for the country of destination, must include the following information:

(1) Name and address of the sender and addressee. (Form 2966-B only.)

(2) Disposal instructions in the event the parcel cannot be delivered. The sender must check the appropriate box on the form to indicate whether the parcel is to be returned, forwarded to an alternate address, or treated as abandoned. NOTE: Undeliverable parcels which are returned to the sender are subject to collection on delivery of return postage and any other charges assessed by the foreign postal authorities. Senders should mark the box "abandon" for any parcel for which they are not willing to pay return postage.

(3) A complete and accurate description in English of the contents of the parcel, even if it contains a gift or sample. An interline translation in another language is permitted. The exact quantity of each article in the parcel should be stated. The sender may declare that the contents have *No Value*, however indicating *No Value* does not imply that the parcel will be exempt from Customs examination or charges in the destination country. General descriptions such as "food," "medicines," "gift," or "clothing" are not permitted. Note: If there is not sufficient space on the form to give a complete list of the contents, an additional declaration form may be used or a list may be placed on the wrapper and noted on the declaration form.

(4) Signature of the sender and date. Sender's signature certifies that the particulars given are correct and that the parcel does not contain any dangerous articles prohibited by postal regulations.

(5) If parcel is to be insured, the amount of insurance should be shown in the space(s) provided. Postal clerk will complete appropriate space(s) as described in 123.221e.

(6) The accepting clerk will initial and postmark the form in the appropriate place(s) and return it to the mailer for affixing.

(7) Sender must affix the Customs form to the address side of the parcel.

123.3 Availability of Forms

Customs Declaration Forms 2966-A and 2966-B are available at post offices and will be furnished to mailers without charge. Upon request, customers should be furnished a reasonable supply of Forms 2966-A and 2966-B for preparation at home or place of business.

123.4 Nonpostal Documentation

Certain articles must be accompanied by one or more of the forms required by the nonpostal export regulations described in Chapter 5.

130 Mailability

131 General

131.1 Domestic Limits

All articles which are nonmailable in domestic mail are nonmailable in international mail. See DMM 123 and 124 and Publication 52.

131.2 International Limits

Many articles which are mailable in domestic mail are nonmailable in international mail.

131.3 Individual Country Prohibitions and Restrictions

.31 Information Available

Information on articles which are prohibited or restricted to individual countries appears under *Prohibitions and Restrictions* in the Individual Country Listings. These prohibitions and restrictions are based on information furnished by the countries concerned. Customers should inquire at the post office about specific prohibitions or restrictions.

.32 Prohibited and Restricted Articles

Articles which are prohibited by the destination country are nonmailable. For mail known to contain articles restricted by the destination country, the sender must be informed of the restrictions and advised that the articles are subject to the import requirements of that country.

.33 Return or Seizure of Mail

A country may return or seize mail containing articles prohibited or restricted within that country, whether or not notice of such prohibition or restriction has been provided to or published by the Postal Service.

.34 Foreign Customs Information

The Postal Service does not maintain or provide information concerning the assessment of Customs duty in other countries. Postal employees must not attempt to inform customers whether articles—gifts or commercial shipments—will be subject to Customs duty. Postal employees may suggest to customers, however, that they inform the addressees in advance of the articles they intend to mail. Addressees can then obtain information from their local Customs authorities. No provision is made for prepayment of Customs duty on mail addressed for delivery in foreign countries.

131.4 Mailer Responsibility

Regardless of any statement in this manual or the statement of any employees of the United States Postal Service, the burden rests with the mailer to ensure compliance with domestic, international, and individual country rules and regulations for mailability.

132 Written, Printed, and Graphic Matter

132.1 Domestic Limits

a. All written, printed, and graphic matter that is described as nonmailable in DMM 123 is nonmailable internationally. These include but are not limited to:

Items may not contain any card or envelope intended for reply purposes (addressed for return) if postage for that reply is denoted by U.S. stamps, business reply, or other indicia. Business reply cards and envelopes generally are not acceptable in international mail. See 241.5 regarding permissible printed matter enclosures and the circumstances under which the enclosure of business reply items may be acceptable.

132.3 Current Correspondence

Typewritten or handwritten communications having the character of actual or personal correspondence must be sent as letters or postcards.

EXCEPTIONS:

(2) The letter or card must be tied or otherwise securely attached to the outside of the parcel.

(3) Stamps to cover postage on the parcel must be placed on the wrapper.

(4) Stamps to pay postage on the letter or card must be placed on the envelope or card.

Parcels with such attachments are treated as parcel post.

133 Improperly Addressed Mail

The following items are nonmailable in international mail:

- a. Unaddressed items.
- b. Items whose ultimate destination cannot be determined due to insufficient, illegible, or incorrect addressing.
- c. Items bearing multiple addresses in the same or different countries.

134 Valuable Articles

134.1 The following valuable articles may be sent only in registered letter packages and insured parcels.

- a. Coins, banknotes, and currency notes (paper money).
- b. Instruments payable to bearer. (The term, "instruments payable to bearer" includes checks, drafts, or securities that can be legally cashed or easily negotiated by anyone who may come into possession of them. A check or draft payable to a specific payee is not regarded as payable to bearer unless the payee has endorsed it in blank. If not endorsed, or if endorsed in favor of another specific payee, it is not regarded as payable to bearer.)
- c. Travelers Checks.
- d. Manufactured and unmanufactured platinum, gold, and silver.
- e. Precious stones, jewels, jewelry, and other valuable articles.

NOTE: The term jewelry is generally understood to denote articles of more than nominal value. Inexpensive jewelry is accepted to countries which prohibit jewelry, but only at the sender's risk.

134.2 Individual countries prohibit or restrict some or all of the valuable items listed above. See the Prohibitions and Restrictions section in the Individual Country Listings.

135 Animals and Plants

135.1 Animals

.11 All live or dead animals are nonmailable, except the following:

- a. Live bees, leeches, and silkworms.
- b. Dead insects or reptiles, when thoroughly dried.
- c. Parasites and predators or injurious insects, provided the following conditions are met:
 - (1) They are admissible in domestic mail.
 - (2) They are useful in controlling harmful insects.
 - (3) They are exchanged by officially recognized scientific or health agencies.
 - (4) They are sent in letter packages or small packets.

- .12 Mailable animals must be enclosed in well-constructed protective containers.

135.2 Plants

.21 General Restrictions

Plants, seeds, and plant material, including fruits and vegetables, are subject to the quarantine regulations of the country of destination. Customers can obtain information concerning these regulations from the:

Animal and Plant Health Inspection Service

or from one of its inspection offices. See 723 for a list of agricultural inspection stations and offices.

.32 Eggs mailed to any country except Canada must be placed in a metal egg container. Each egg must be packed in cushioning material. The metal egg container must be enclosed in an outer container of wood with cushioning material packed between the two containers.

.33 Eggs mailed to Canada may be packed either as prescribed in 135.32 or in a box of a rigid material with a tight-fitting lid. Each egg must be wrapped in protective material and placed on end. Vacant spaces in the box must be filled with packing material to prevent the eggs from striking each other or against the sides, top, or bottom of the box.

135.4 Food and Other Perishable Articles

Fruits, vegetables, fresh meats, and other articles which easily decompose or which cannot reasonably be expected to reach their destination without spoiling are nonmailable.

136 Special Packaging Requirements

136.1 Fragile Articles

Articles of glass or other fragile materials must be securely packed in boxes of metal, wood, strong plastic, or fiberboard (minimum 275-pound test board) with adequate cushioning material to prevent the articles from moving about or coming in contact with each other or with the side of the box in the course of transmission.

136.2 Liquids

Liquids, oils, and substances which easily liquefy must be enclosed in hermetically sealed containers. Each container must be placed in a separate box of metal, strong wood, plastic, or fiberboard (minimum 275-pound test board) containing enough cushioning material to absorb the liquid if the container leaks. The cover of the box must be fastened in such a way that it cannot become easily detached.

136.3 Fatty Substances

Fatty substances which do not easily liquefy, such as ointments, soft soap, resins, etc., as well as silkworm eggs, must be enclosed in an inside cover (e.g., box, bag of cloth, plastic, etc.) which must be placed in a second box of wood, metal, strong plastic, or sturdy, thick material.

136.4 Powders

Dry powdered dyes such as aniline, etc., must be enclosed in sturdy tin or strong plastic boxes placed inside wooden boxes with cushioning between the two containers. Dry noncoloring powders must be placed in boxes of metal, wood, strong plastic material, or fiberboard. These boxes themselves must be enclosed in a sift-proof container.

Special packaging requirements are included with other instructions for eggs: 135.3; perishable biological substances: 137.41; and flammable liquids: 139.41.

137 Perishable Biological Substances

137.1 Restrictions

Perishable infectious biological substances (those having a pathogenic or disease-producing nature) and perishable noninfectious biological substances are mailable in international mail under the following conditions:

- a. They may be sent *only* in registered airmail letter packages.
- b. They may be sent *only* to those countries which have indicated a willingness to accept them.

NOTE: Countries distinguish between infectious and noninfectious biological substances and may prohibit one or the other or both. See Prohibitions in Individual Country Listings.

- c. They may be sent *only* by authorized laboratories to their foreign counterparts.

137.2 Mailing Authorization

- a. Perishable biological substances can be sent to or received by *only* the following institutions:

- (1) Laboratories of local, state, and Federal Government agencies.
- (2) Laboratories of federally licensed manufacturers of biological substances derived from bacteria and viruses.
- (3) Laboratories affiliated with or operated by hospitals, universities, research facilities, and other teaching institutions.
- (4) Private laboratories licensed, certified, recognized, or approved by a public authority.

b. Qualifying institutions wishing to mail letter packages containing perishable biological substances must submit a written request on its organizational letterhead to the General Manager, International Mail Classification Division, Office of Mail Classifications, USPS Headquarters, Washington, DC 20260-5365. In its letter of application, the institution should indicate the nature of its work, the identity and qualifications of the prospective recipient, and the number of packages to be mailed. Upon approval of the application, the requested number of biological substance mailing labels will be furnished by the Postal Service.

137.3 Labeling Requirements

- a. Letter packages containing perishable infectious biological substances should be identified by a black and white diamond-shaped label. The top half of the label bears the designated symbol for infectious substances, while the bottom half contains the following warning:

Infectious Substance. In case of damage or leakage immediately notify public health authority.

- b. Letter packages containing perishable noninfectious biological substances should be identified by a violet-colored label bearing the prescribed symbol and French wording for perish-

able biological materials: *MATIERES BIOLOGIQUES PERIS-SABLES*.

137.4 Packaging Requirements

.41 Infectious Biological Substances

a. Infectious biological materials must be packed in a tightly closed, nonpermeable inner container made of glass, metal, or plastic.

b. The inner container should have a leak-proof metal seal (e.g., heat-sealed metal stopper, metal screw cap, etc.) to prevent spillage of the contents. If a screw cap seal is used, it must be reinforced with tape.

c. The inner container must be surrounded by absorbent material and placed in a watertight second container which is strong enough to prevent outside contamination.

d. The second container and its contents must be wrapped in cushioning material and placed in a tight-fitting, protective, shipping box or carton constructed of wood, metal, or other equally strong material. This outer packaging should have a tight-fitting lid to prevent it from opening during transport.

e. Infectious substances shipped in a refrigerated or frozen state must *not* be sent in an inner container with a metal screw cap. A heat-sealed skirted stopper or metal crimp seal must be used to prevent the contents from leaking.

f. When wet or dry ice is used as a preservative, the following procedures must be followed: (a) the wet or dry ice must be placed between the second container and the outer packaging; (b) the outer packaging should be designed with interior supports to prevent it from collapsing after the wet ice melts or the dry ice has evaporated; (c) when wet ice is used, the entire package must be leakproof; (d) when dry ice is used, the outer packaging must permit the release of carbon dioxide gas.

g. See DMM 124.38 for general packaging requirements.

.42 Noninfectious Biological Substances

a. Noninfectious substances must be packed in a nonporous inner container and surrounded by enough absorbent material to completely absorb the entire contents of the container.

b. The inner container and absorbent material must be inserted in a second container that is sufficiently tight fitting to prevent the contents from shifting.

137.5 Handling and Dispatch

Letter packages containing perishable biological substances should be given careful yet expeditious handling from receipt through dispatch. Shipments containing infectious substances must be segregated from other types of mail matter (i.e., placed in separate bags). USPS Tag 44, *Sack Contents Warning*, should be attached to the outside of such sacks to identify the potentially hazardous nature of their contents.

138 Radioactive Materials

Shipments containing radioactive materials are mailable in international mail *only* under the following special circumstances:

a. Shipments may be sent *only* in registered airmail letter packages.

b. Shipments may be sent *only* to those countries which have expressed a willingness to accept radioactive materials. (See Prohibitions in the Individual Country Listings.)

c. Shipments must comply with both the International Atomic Energy Agency Regulations and the packaging specifications contained in this section.

d. Senders and recipients of radioactive materials must receive prior authorization from the appropriate regulatory authorities within their countries.

e. A white package label bearing the French words *MATIERES RADIOACTIVES* (Radioactive Materials) must be taped or gummed to the address side of each package containing radioactive materials. Senders are responsible for supplying and affixing this label to the package wrapper.

f. Package wrappers must also bear the following endorsement in bold letters:

Return to Sender in Case of Nondelivery.

139 Dangerous Materials

139.1 General

Except as provided herein, any article, item, composition, or material which may kill or injure a person or is likely to destroy, deface, or otherwise damage the mail or other property is nonmailable.

- a. An absolute pressure in the cylinder or other pressure vessel in excess of 40 lbs./sq. in. at 170 degrees Fahrenheit or 104 lbs./sq. in. at 130 degrees Fahrenheit or both.
- b. For flammable liquid mixtures, an absolute vapor pressure in excess of 40 lbs./sq. in. at 100 degrees Fahrenheit as determined by standard test methods.

Exceptions:

(1) Consumer aerosol products (e.g., deodorants, hairsprays, and shaving creams) containing nonflammable compressed gases or liquids are mailable in quantities of one pint or less per package.

(2) Nonflammable compressed gases and liquids (e.g., argon, helium, neon, and nitrogen) are admissible, provided they possess an absolute pressure in the dispenser of less than 40 lbs./sq. in. at 70 degrees Fahrenheit. The dispenser must set an absolute pressure of more than 40 lbs./sq. in. or a gauge pressure of 25 lbs./sq. in.

211.2 Two Services

.21 Custom Designed Service

Express Mail International Custom Designed Service may be picked up from any address or mailed at designated postal facilities in accordance with the Service Agreement (Form 5631, *Express Mail Service Agreement*, and attachments) between the Postal Service and the mailer, subject to the provisions of this subchapter. Designated postal facilities include main post offices, designated stations and branches, and designated airport mail facilities.

.22 On Demand Service

Express Mail International On Demand Service is available at designated postal facilities for nonscheduled expedited services to addresses located in countries as shown in Appendix D.

211.3 Service Agreements

A service agreement is required before mailings may be made under the Express Mail Custom Designed Service (see DMM 223.2 and 224.3). Prior authorization or prearrangement is not required for the On Demand Service.

211.4 Insurance and Indemnity

International Express Mail is insured against loss, damage, or rifling at no additional cost. Indemnity will be paid by the U.S. Postal Service as provided in DMM 294. However, International Express Mail items are *not* insured against delay in delivery. Neither indemnity payments nor postage refunds will be made in the event of delay.

211.5 Return Receipt Service

Return Receipt service is available at no additional charge for International Express Mail Custom Designed and On Demand items to: Argentina, Australia, Bahrain, Belgium, Federal Republic of Germany (West Germany), Hong Kong, Republic of Korea, Kuwait, Singapore, South Africa, Spain, Switzerland, Taiwan, and Tunisia. a. Customer has properly completed his portion of the receipt.

.52 Nondutiable Merchandise

Nondutiable merchandise may be mailed (at the sender's

risk) to countries which do not accept dutiable merchandise. The Postal Service assumes no responsibility for the treatment such items may receive in the country of destination. *NOTE:* Because the green customs label (Form 2976) described in 123.12 generally denotes dutiable contents, it should be omitted from letter mail when the sender knows the contents are not dutiable.

.23 Aerogramme service is available to all countries. Registry service is available for aerogrammes.

.24 Enclosures are *not* permitted in aerogrammes. Aerogrammes which contain enclosures are treated as airmail letters and are subject to air letter postage rates. Aerogrammes with enclosures on which postage has not been paid at airmail letter rates must be returned to the sender for the deficiency or treated in accordance with 423.

231.3 Aerogrammes of Private Manufacture

.31 Individuals or firms may be authorized by the Postal Service to manufacture aerogrammes, without imprinted postage, for their own use or for sale to the public.

Special Services

310 Certificate of Mailing

311 Description

Certificates of mailing furnish evidence of mailing only. A receipt is not obtained upon delivery of the mail to the addressee. The fee paid for certificates of mailing does not insure the item against loss or damage.

312 Availability

Certificates of mailing can be purchased for:

- a. Ordinary (unregistered) Postal Union mail,
- b. Ordinary (uninsured) parcel post,
- c. Duplicates of original certificates of mailing.

NOTE: Certificates cannot be purchased for bulk mailings paid with permit imprint.

313 Fees

313.1 Individual Pieces

.11 The fee for certificates of mailing for ordinary Postal Union mail and ordinary parcel post is 45 cents per piece whether the item is listed individually on Form 3817, *Certificate of Mailing*, or on firm mailing bills. Additional copies of either Form 3817 or firm mailing bills are available for 45 cents per page.

.12 Form 3877, *Firm Mailing Book*, or forms printed at the mailer's expense may be used for certificates for three or more pieces of mail of any class presented at one time. If mailer printed forms are used instead of Form 3877, these forms must contain, as a minimum, the same information as Form 3877. The fee is 15 cents per article listed.

313.2 Bulk Pieces

Identical pieces of ordinary Postal Union mail paid with stamps, precanceled stamps, or meter stamps are subject to the following fees:

Up to 1,000 pieces (1 certificate for total number)	\$1.60
For each additional 1,000 pieces or fraction	.20
Duplicate copy	.45

314 Processing Requests

314.1 Forms

.11 Postal Service Forms

The forms used for domestic mail are also used for international mail. (See DMM 931).

.12 Treasury Department Forms

a. The sender may receive a certificate of mailing on Treasury Department (Internal Revenue) Forms P.T. 26, 27-A, or 550, certifying that he has waived the right to withdraw the item from the mail. The certificate of mailing fees apply to these forms.

b. Post offices may also certify, on Customs Form 4455, *Certificate of Registration*, the exportation by mail of items sent

abroad for alteration, repair, or replacement (see 713.43). The certificate of mailing fees apply to each completed form.

.13 Agriculture Department Forms

Certain certificates or permits are required for the exportation of dried whole eggs and for tobacco seeds and plants. For procedures and fees, see 550 and 560, respectively.

314.2 Preparation

.21 Sender must:

- a. Prepare certificate as prescribed in DMM 931.
- b. Use typewriter, ink, or ballpoint pen.
- c. Affix postage stamps or postage meter stamps to the certificate to cover fees.

- e. Return certificate to the accepting clerk.

.22 Accepting clerk must:

- a. Make sure that the form has been properly completed and that the correct amount of postage has been affixed.
- b. Cancel the stamps with a postmark showing the current date.
- c. Sign the Treasury Department forms described in 314.12. *Note:* This is the only instance in which certification requires signatures or initials of postal employees.
- d. Return the form to the sender. *Exception:* Permits for mailing tobacco seeds and tobacco plants are retained by the post office and forwarded to the Agriculture Department (see 560).

320 Insurance

321 Description

Insurance affords a means of coverage against loss, rifling, or damage to parcel post. Compensation is payable at various levels according to the fee paid.

322 Availability

Insurance is available *only* for parcel post and only to certain countries. See Individual Country Listings. Insurance is *not* available for Postal Union mail.

323 Fees and Insured Value

323.1 Insurance Fees

The insurance fee is in addition to postage and other applicable fees. See Individual Country Listings.

323.2 Insured Value

.21 The insured value (insurance coverage) of a parcel may not be more than the maximum allowed for the country of destination. See Individual Country Listings.

.22 The insured value (insurance coverage) of a parcel may not be more than the declared value of the contents. However, insured value may be *less than declared value, depending on the wish of the sender*.

- .23 The insurance fee is based on the insured value.

324 Processing Requests

324.1 Mailing Receipt and Insurance Number

.11 All international insured parcels *must* be numbered. The Form 3813-P, *Receipt for Insured Mail, Domestic-International*, provides a numbered insurance label for the parcel and an identically numbered mailing receipt for the sender. The receipt is issued to the sender as proof of mailing and proof of payment of insurance fee. For volume mailers, Form 3877, *Firm Mailing Book*, may be used as sender's receipt. *Note:* The post office keeps no record of the mailing of insured packages. Mailers must enter the name and address of the addressee on the receipt and retain it. Mailers must exhibit the receipt if claim for loss is made. The receipt must be shown if an inquiry is filed.

- .12 Accepting clerk must:

- Tear off the numbered insurance label and affix it to the parcel close to the address.
- Complete the receipt part of Form 3813-P to show city and country of destination, postage, insured value (insurance coverage), and insurance fee; the special handling and/or return receipt fees (if applicable); and total charge, and must check special contents indication (fragile, liquid, perishable), if applicable.
- Postmark and initial the receipt and issue it to the sender.
- For Federal Government official parcels (see 144.1) presented for insurance, indicate the amount of the fee, according to the authorized amount of insurance requested.

.13 Sender should enter name and address of addressee on mailing receipt and retain it. The receipt must be submitted if the sender wishes to make an inquiry about, or file a claim for, an insured parcel (see Chapter 9).

324.2 Marking

- .21 Sender must:

- Mark parcels containing fragile or perishable with the appropriate endorsement; e.g., *FRAGILE* or *PERISHABLE* or *GLASS*, etc.
- Enter the insured amount in U.S. currency (figures only), in the appropriate space on the customs declaration.

- .22 Accepting clerk must:

- Indicate on the parcel the amount for which the parcel is insured. This amount must be written in ink and expressed in U.S. currency (figures and words) and in gold francs (GFR) and special drawing rights (SDR) values. Indicate the gold franc and SDR values in figures only. For example:

INSURED VALUE
\$100.00 (U.S.)
One Hundred Dollars and No Cents
294.38 Gold Franc
96.17 SDR

- See Appendix C for U.S. dollar to gold franc and SDR equivalents.

Note: Conversion of U.S. dollars to gold franc and to SDR equivalents is based on the following formulas:

1 GFR = \$0.34	1 US\$ = 2.9438 GFR
1 SDR = \$1.04	1 US\$ = .9617 SDR

To convert U.S. currency into gold franc and SDR equivalents, multiply the U.S. amount (rounded up to the next full dollar) by 2.9438 for the gold franc value and by .9617 for the SDR value.

- Enter the insured number, insured amount, and gold franc and SDR equivalents on the customs declaration and dispatch note when Form 2966-B is used.

324.3 Postmarking

- Postmark item at the time of acceptance, showing the full name of post office, two-letter State abbreviation and ZIP Code, if authorized, and the date of mailing.
- Postmark at all breaks (cuts or torn edges) of any gummed-paper strips used in sealing parcels.

324.4 Sealing

All insured parcels must be sealed.

324.5 Return Receipt

Return receipts may be purchased for insured parcels to all countries with which insurance agreements are in force, except Canada (see 340).

325 Indemnity Claims and Payments

Sender must submit mailing receipt to make an inquiry or file a claim. See Chapter 9.

For detailed information concerning indemnity claims and payments for lost, rifled, or damaged insured parcels see 930.

330 Registered Mail

331 Description

Customers may register mail for additional protection and security in dispatch, conveyance, and delivery. For each registered item, a mailing receipt is issued by the office of mailing, and a record of delivery is maintained at the office of destination. Indemnity limits are much lower for registered mail than for insured mail and do not extend uniformly to damage or rifling of contents. Registered mail is handled separately from all other mail and records are kept by registry number. In post offices, registered mail is kept in a secure area to which only authorized employees are permitted.

332 Availability

Registered mail service is available *ONLY* for letters/letter packages, small packets, matter for the blind, and printed matter. *EXCEPTION:* Registered service is *NOT* available for direct sacks of printed matter to one addressee ("M" Bags). A few countries prohibit registered service. See Individual Country Listings. Registered mail service is *NOT* available for parcel post.

333 Fees and Indemnity Limit

333.1 Registration Fee

Fee for registration is \$3.60 and is in addition to postage and fees for other services. *EXCEPTION:* See Canada.

333.2 Indemnity Limit

Indemnity is limited to \$20.40. *EXCEPTION:* Canada has an indemnity limit of \$200.00.

334 Processing Requests

334.1 Mailing Receipt and Registration Number

.11 A receipt is issued for registered mail when it is accepted. For individual transactions, Form 3806, *Receipt for Registered Mail*, is used. When an average of three or more items are presented for registration at one time, Form

3877, *Firm Mailing Book for Registered, Insured, C.O.D., Certified and Express Mail*, may be used (see DMM 911.3). The registered number is determined by the Label 200, *Registered Mail*, a preprinted self-adhesive label with a number series of nine digits preceded by the letter R, which is affixed to the piece at the time of mailing.

.12 Sender must:

a. Enter the name and address of addressee on the mailing receipt before presenting the item for registration.

b. Declare the FULL value of mail presented for registration. Note: Regardless of the declared value, the maximum indemnity payable for loss of registered mail is \$20.40 (except for Canada which has an indemnity limit of \$200.00).

c. The sender should retain the receipt and must submit it if he subsequently wishes to make an inquiry about, or file a claim for, the registered item (see Chapter 9).

.13 Accepting clerk must:

a. Affix a Label 200, *Registered Mail*, to the item in the lower left corner of the address side and enter the number in ink on the mailing receipt.

b. If requested by the sender, show on the mailing receipt and on the post office record the time the item was accepted for mailing.

c. Enter the registration fee and postage, plus special delivery, return receipt, and/or restricted delivery fee, if applicable, on the receipt.

d. Endorse mailing receipt *OFFICIAL PAID* or *OFF. PD.* when Federal Government official mail is registered pursuant to 144.1.

334.2 Marking

The following endorsements and special markings must be entered by the accepting clerk on each registered item:

a. Affix Label 200 as noted above. All registered mail of U.S. origin must bear a Label 200 or a USPS approved facsimile in the same OCR "A" readable type face.

b. Place airmail Label 19 or the words *PAR AVION* on registered items prepaid for air, if the sender has failed to do this.

c. Endorse the item for special services requested by the sender.

334.3 Postmarking

.31 Postmark registered letters twice on the back, on the crossing of the upper and lower flaps. If return receipts are used, postmark partially on the receipt and partially on the flaps of the letter. Letters sealed on the address side must be postmarked on the address side.

.32 Postmark registered matter for the blind on the address side.

.33 For registered printed matter or small packets: (a) Postmark on the address side, if unsealed; (b) Postmark as prescribed in 334.31, if sealed.

334.4 Sealing

.41 Senders must securely seal letters or letter packages presented for registration. Wax or paper seals on envelopes must bear a distinctive mark of the sender and must be affixed in such a way as to allow sufficient space at the intersections of the flaps for postmarking. Self-sealing envelopes and items which appear to have been opened and resealed may not be registered.

.42 Registered Matter for the Blind must *not* be sealed.

.43 Sealing is optional for registered printed matter and small packets.

334.5 Return Receipt and Restricted Delivery

Return receipts and restricted delivery can be purchased for registered items to most countries. (See 340 and 350 and Individual Country Listings.)

335 Indemnity Claims and Payments

Sender must submit mailing receipt to make an inquiry or file a claim. (See Chapter 9.)

For detailed information concerning indemnity claims and payments for registered items which are lost, rifled, or damaged, see 930.

340 Return Receipt

341 Description

The Form 2865, *Return Receipt for International Insured or Registered Mail* (Avis de Reception), is a pink card which is attached to a registered or insured item and to International Express Mail to certain countries (see 211.5) at the time of mailing, and which is removed and signed at the point of delivery and returned to sender. It provides the sender with evidence of delivery.

Return receipts are completed in the country of destination in accordance with its internal regulations, which may not require the addressee's signature except under special circumstances. They are returned to sender by airmail.

342 Availability

Return receipts can be purchased *only* at the time of mailing and are available *only* for registered or insured mail. A few countries do not admit return receipts and many restrict them to registered mail. See Individual Country Listings.

However, if sender did not purchase a return receipt at the time of mailing, there will be an inquiry charge of \$4.50.

344.4 Return Receipt Improperly Completed or Not Received

If the sender does not receive back a return receipt for which a fee was paid, or if the sender receives an improperly completed return receipt, an inquiry should be filed. See 927 and 928 for applicable inquiry procedures.

350 Restricted Delivery

351 Description

351.1 Restricted delivery is a service which generally limits who may receive an item. The details of the service, however, are governed by the internal legislation of the destination country. Some countries will deliver only to the addressee in person and will obtain that person's signature on the receipt. Other countries may permit delivery to agents of the addressee and/or require only the signature of a postal official on the return receipt.

351.2 If the country of destination is unable to deliver the item in accordance with its regulations, it will be returned as undeliverable.

352 Availability

(1) Remove the imprinted form set from the imprinter and snap out the carbons.

(2) Discard the carbons and stub.

(3) Verify that all information is clearly imprinted on the authorization (bottom) part, and that the date, office number, and amount are correct, clear, and completely legible on all parts.

392 International Reply Coupons

392.1 Description

a. The sender of a letter may prepay a reply by purchasing reply coupons which are sold and exchangeable for postage stamps at post offices in member countries of the Universal Postal Union. The period of exchange of international reply coupons issued by the Universal Postal Union on or after January 1, 1975, is unlimited.

b. International reply coupons (in French, *Coupons-Réponse Internationaux*) are printed in blue ink on paper which has the letters UPU in large characters in the watermark. The front of each coupon is printed in French. The reverse side of the coupon shows the text relating to its use in German, English, Arabic, Chinese, Spanish, and Russian.

c. Coupons sold in the United States have the selling price printed on them, while coupons in other countries may not.

392.2 Availability

Reply coupons may be requisitioned by post offices in the same manner as postage stamps. The coupons should be stocked at post offices which have a demand for them.

392.3 Selling Price and Rate of Exchange

a. The selling price of a reply coupon in the United States is 65 cents. One coupon is exchangeable in any other member country for a stamp or stamps representing the minimum postage on an unregistered surface letter. Upon presentation of a sufficient number of coupons, the stamp or stamps received in exchange may be used to prepay an international airmail letter. Unused U.S. coupons (that is, those with the U.S. selling price stamped on them) may be exchanged only for United States postage stamps by the original purchaser at a discount of 1 cent below the purchase price.

b. International reply coupons purchased in foreign countries are exchangeable at U.S. post offices toward the purchase of postage stamps, postage meter stamps, and embossed stamped envelopes (including aerogrammes) at the rate of 37 cents per coupon, irrespective of the country where it was purchased.

392.4 Processing Requests

a. U.S. post offices must postmark reply coupons in the lower left circle at the time of sale. Coupons issued by some foreign countries may not be postmarked in the lower left circle.

b. A post office redeeming an unused U.S. coupon must postmark it in the unpostmarked circle. A post office exchanging a foreign reply coupon must postmark it in the right circle. Post offices must not accept foreign coupons which already bear a USPS postmark.

c. Reply coupons issued by foreign countries prior to January 1, 1975, are no longer redeemable at U.S. post offices. These old-style coupons are distinguishable from the newer coupons printed by the International Bureau of the Universal Postal Union, because the name of the country of origin is always present on the old-style coupons. Customers processing pre-1975 coupons of foreign origin should be advised to return them to their correspondents in the country of issue for replacement or redemption through the selling post office.

d. Reply coupons formerly issued by the Postal Union of the Americas and Spain are no longer valid. These coupons are printed in green ink and bear the caption *Cupon Respuesta America-Espanol*. Customers possessing any of these coupons should return them to their correspondents in the country of issue for redemption through the selling post office.

e. Postmasters must dispose of exchanged foreign and redeemed U.S. coupons as prescribed in Handbook F-1, *Financial Handbook for Post Offices*.

423.3 Credit For Postage Paid

When computing the postage due on items which are returned to sender for insufficient postage, allow a credit for the postage already paid.

423.4 Parcels At Other Than Mailing Offices

Originating bulk mail centers must check for shortpaid parcels addressed to Canada and Mexico. Sectional centers and

other intermediate offices, however, should not attempt to verify postage payment on parcels.

430 Improperly Prepared Mail

431 Insufficient Address

If an item is improperly addressed, but the country of destination is legibly written, dispatch it to the exchange office. The exchange office will determine whether the address is sufficient.

432 Oversized or Undersized Items

Post offices must return to the sender any item which is more than the prescribed maximum size or is less than the prescribed minimum size. If the sender is not known, the item must be dispatched to the dead letter office or dead parcel office.

440 Special Services Mail

441 Registered Mail

441.1 Recording and Dispatching

.22 Enter as registered mail any item on which the sender has fully prepaid the postage and the registry fee and which has been endorsed to show that registry is desired. Send a mailing receipt (see 334.1) to the sender, including a reminder to the sender that mail to be registered must be presented at the post office for that purpose.

.23 If the item has not been fully prepaid, return it to the sender after indicating that it is shortpaid and must be presented for registry at a post office. If the shortpaid registered item bears no return address, cross out the sender's registry endorsement and dispatch as ordinary mail.

442 Special Delivery

Dispatch international special delivery articles to the appropriate U.S. exchange office in the manner prescribed for domestic special delivery articles.

443 Special Handling

Special handling items must be given priority in distribution and dispatch from the office of mailing to the U.S. office of dispatch within the United States.

Chapter 5

Nonpostal Export Regulations

510 [Reserved]

520 Shipper's Export Declaration

521 Description

521.1 U.S. Department of Commerce regulations require shippers mailing merchandise to foreign countries for commercial purposes to file a *Shipper's Export Declaration* (SED) on Commerce Form 7525-V with the post office at the time of mailing. Under these regulations, shippers who wish to correct a previously filed export declaration must promptly submit a photocopy, carbon, or other legible copy of the originally filed *Shipper's Export Declaration*, on which the incorrect data are neatly lined out and the correct data are entered, to the postmaster at the post office where the shipment was mailed. Corrected copies should show the words "Correction Copy" conspicuously in the upper right of the form.

521.2 The Commerce Department authorizes some companies to submit magnetic tapes to the Census Bureau in lieu of filing *Shipper's Export Declarations*. Packages presented for mailing by authorized companies will bear an endorsement such as *No Sed Required, Sect 30.39 FTSR, S.A.S.-S.M.* Packages bearing this or a similar endorsement may be accepted for mailing *without* Commerce Form 7525-V.

522 When Required

(2) From the United States to Puerto Rico or the Virgin Islands of the United States.

(3) From Puerto Rico to the United States or the Virgin Islands of the United States.

Commerce Form 7525-V is not required when the following goods are mailed:

a. Catalogs, instruction books, and other advertising matter or magazines, newspapers, and periodicals.

technical data of a general nature, and 540 for the shipment of technical data relating to munitions.)

c. Shipments by companies authorized to submit magnetic tapes to the Census Bureau in lieu of filing *Shipper's Export Declarations*, as provided in 521.2.

d. Goods which involve no commercial consideration, except shipments described in 522.1b.

523.1 Occasional shippers may obtain Commerce Form 7525-V free of charge at post offices and Department of Commerce district offices.

523.2 Regular exporters may purchase copies of Commerce Form 7525-V from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402-0001, from District Directors of Customs, or from Commerce Department district offices. Copies may be privately printed, provided they conform in every respect to the official form.

523.3 Postmasters may obtain supplies, without cost, for limited distribution to occasional shippers from the Foreign Trade Division, Bureau of the Census, Washington, D.C. 20233-0001.

524 How to Prepare Shipper's Export Declaration (Commerce Form 7525-V)

General descriptions - such as dry goods, groceries, or millinery - are not sufficient. Quantities and values must be given in whole numbers only. Fractions should be rounded to the nearest whole number.

524.5 Export Commodity Control Number

For validated license shipments (see 533) and those under general license GLV (see 532.132), include directly below the Schedule B number, the applicable four-digit Export Commodity Control Number (on the "Commodity Control List" part 339.1 of the Export Administration Regulations). 524.6 How to Obtain Schedule B

The shipper may obtain copies of Schedule B for a nominal charge from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20401-0001; from District Directors of Customs; or from Commerce Department district offices located in principal cities of the United States.

525 Handling and Disposal of Shipper's Export Declaration

When Commerce Forms 7525-V or corrected copies of Form 7525-V are presented at a post office in accordance with 522, they must be postmarked in the lower left corner. One copy must then be sent to the Foreign Trade Processing Unit, Bureau of the Census, 1201 East 10th Street, Jeffersonville, Indiana 47132-0001.

530 Commodities and Technical Data

531 Scope and Applicability of Licensing Requirements

531.1 The Office of Export Administration, U.S. Department of Commerce, controls all exportations except for certain commodities and technical data licensed for export by other U.S. Government agencies; however, most commodities and technical data exported to Canada are not controlled.

531.2 Senders must understand and comply with these regulations when exporting commodities and technical data by mail. Postal employees will *not* advise prospective mailers of the type of license applicable to any commodities or to any destination. However, before accepting packages, employees should ensure that senders have complied with applicable regulations.

531.3 A brief summary of the regulations as they apply to mail shipments is provided in this subchapter. Additional information is available to senders from the following sources:

- a. Commerce Department bulletin titled *Exports By Mail-Export License Requirements for Exports by Mail*.
- b. Exporters' Service Staff, Office of Export Administration, U.S. Department of Commerce, Washington, D.C. 20230-0001 (telephone: 202-377-4811), or any district office of that Department. A list of district offices is included in the Exports by Mail bulletin cited in 531.3a.

532 General Export Licenses

532.1 Description

.11 Purpose of General Export Licenses

A general export license (as opposed to a validated export license described in 533.1) authorizes exports without application by the exporter to the Office of Export Administration. Each general license is designated by a symbol, such as *G-DEST*, *GLV*, *GIFT*, *GUS*, etc. This section describes certain general licenses used for mail shipments. Further information can be obtained as provided in 531.3.

.12 General License GIFT

.121 This license covers gift packages mailed by or on behalf of an individual to an individual addressee for the personal use of the addressee or the addressee's family, or to a religious, charitable, or educational organization. The contents are limited to items usually sent as gifts, such as food, civilian clothing, medicines, and drugs.

.122 The value of the contents of a gift package is limited to \$200.

.123 Not more than one gift package may be mailed per week by the same sender to one addressee.

.13 General Licenses G-DEST and GLV

.131 General License G-DEST may be used for any shipment, regardless of quantity, unless the Commerce Department's "Commodity Control List" (part 399.1 of the Export Administration Regulations) indicates that a validated export license is required.

.132 General License GLV may be used for certain types of small value shipments to which G-DEST does not apply. Except for Romania, to which commodities may be shipped up to the dealer value limits specified on the "Commodity Control List," General License GLV may not be used for destinations named in Exhibit 532.2 below.

.14 General Licenses GTDA and GTDR

Some technical data may be exported under general licenses GTDA and GTDR.

.15 General License GUS

This license is used for shipments to U.S. Government agencies and personnel under prescribed conditions.

.16 General License BAGGAGE

This license is used to mail unaccompanied baggage of travelers, consisting of personal and household effects not intended for sale, under conditions and limitations established in Commerce Department Export Administration regulations.

532.2 Restricted Destinations of General Export Licenses

The U.S. Department of Commerce imposes particular restrictions on exports to certain countries. An "X" in Exhibit 532.2 indicates shipments under that license are NOT permitted. Otherwise, use of the general license symbol is permitted.

532.3 Shipper's Export Declaration Required

.31 A *Shipper's Export Declaration*, Commerce Form 7525-V (see 520), is required for commercial shipments valued at more than \$500 unless otherwise excepted by the Commerce Department Export Administration regulations (see 522.2).

.32 Noncommercial exports under general license do not require an export declaration.

¹When in doubt as to whether specific items are exportable under any general license, consult the Office of Export Administration, U.S. Department of Commerce, Washington, D.C. 20230-0001, or any Commerce Department district office.

²Letter post and parcel post packages of merchandise are not accepted to Cuba, Kampuchea, and Democratic People's Republic of Korea (North).

³For Cuba, Kampuchea, and Democratic People's Republic of Korea (North), and Vietnam, General License *G-DEST* may be used only for unclassified printed matter and developed motion picture film. All other commodities require a special license, and it is the Commerce Department's general policy to deny most special license requests for exports to the countries listed in this footnote.

⁴Certain commodities may be shipped to Romania under General License GLV, up to the dollar-value limits specified on the "Commodity Control List" (part 339.1 of the Export Administration Regulations).

EXHIBIT 532.2, GENERAL LICENSE SYMBOLS NOT PERMITTED¹

532.4 Mailing under General Export Licenses

.41 Marking by Sender

.411 When a sender finds that the contents of his package are properly exportable under any general license except *GTDA* and *GTDR* (technical data) (see 532.14), he must mark the wrapper with the appropriate symbol and with the words *Export License Not Required* before presenting it at the post office. The postal clerk may accept any package so marked unless the symbol obviously is being misused. The marking constitutes a representation that the sender has complied with the regulations governing the use of the general license denoted by the symbol.

.412 No marking is required on wrappers of packages containing technical data mailed under General Licenses *GTDA* and *GTDR*.

.42 Processing in Post Offices

.421 If a general license symbol with the notation *Export License Not Required* is shown on the package, compare the contents as shown on the customs declarations (see 123) with the commodities listed on the *Shipper's Export Declaration*, when required (see 532.3).

.422 If no discrepancy is noted, and the contents of the package are mailable and are not prohibited by the country of destination, accept the package and the export declaration (if required) from the sender. Postmark the export declaration and dispose of it as instructed in 525.

.423 In the case of mailings of certain technical data (*GTDA* or *GTDR*), where no symbols on the wrapper and no export declarations are required (see 532.3), determine orally from the sender that the export is properly authorized under General License *GTDA* or *GTDR*.

533 Validated Export Licenses

533.1 Definition

A validated export license is a document issued by the Office of Export Administration, authorizing a specific export pursuant to an application by the exporter. Further information can be obtained from the sources referenced in 531.3.

533.2 Shipper's Export Declaration Required

A *Shipper's Export Declaration* (Commerce Form 7525-V, see 520) is required for every shipment covered by a validated export license, except technical data.

533.3 Mailing Under Validated Export Licenses

.31 Marking and Disposition by Sender

.311 When shipping under a validated export license, the sender must enter the complete validated license number on the address side of the wrapper and also on a duly executed *Shipper's Export Declaration* (see 533.2) covering the commodity to be mailed.

.312 The validated license document will be retained by the sender, who will record all shipments of commodities or related technical data on the reverse side. When the license has been completely used or will not be used further, the sender must forward the license promptly to the Office of Export Administration, Rm. 1617M, U.S. Department of Commerce, Washington, D.C. 20230-0001.

.32 Processing in Post Offices

.321 For items containing commodities other than technical data which show a validated license number, verify that the description of the contents appearing on the customs declaration

(see 123) conforms to the description on the *Shipper's Export Declaration*.

.322 If no discrepancy is noted and the contents of the item are mailable and are not prohibited by the country of destination, accept the item and postmark the export declaration (if required) and dispatch in accordance with 525.

540 Munitions and Related Technical Data

541 Licensing Requirements

541.1 Individual Licenses

.11 The exportation of certain munitions (arms or implements of war, parts or components thereof, and related technical data) requires an individual license issued by the Office of Munitions Control, Department of State. Munitions subject to license include the following:

.12 The sender may obtain information as to the applicability of the State Department requirements and how to apply for an individual license from the Office of Munitions Controls, Department of State, Washington, D.C. 20520-0001.

541.2 Mail Exempt from Licensing

.21 Technical Data

.211 Technical data which have been published or are otherwise exempt from licensing under Title 22, Code of Federal Regulations, part 125, do not require a State Department license for exportation. The sender must mark the wrapper *22 CFR 125.11 . . . Applicable*, identifying the specific subsection under which the exemption is claimed.

.212 Exports under this exemption may not be made for items destined to or originating in:

Shipments mailed by any U.S. Government agency do not require an individual license from the Department of State. The sender must mark the wrapper *22 CFR 125.10 Applicable*.

542 Mailing Under Individual Licenses

542.1 Marking by Sender

.11 In making shipment under an individual license, the sender must mark the wrapper *State Department Export License No.* _____.

.12 Enter the amount being shipped on the back of the license, if only a portion of the amount authorized is mailed.

542.2 Processing in Post Offices

.21 When a sender presents a State Department license, compare the description of the article indicated on the license with the description of the contents shown on the Customs declaration (see 123), or stated orally by the sender in the case of technical data mailed as printed matter (see 541.21). If no discrepancy is noted, and the contents of the package are mailable and are not prohibited by the country of destination, accept the package for mailing.

.22 If the mailing represents the entire amount authorized by the license, retrieve the license from the sender, mark it *Completed*, apply a legible postmark, and forward it to the Office of Munitions Control, U.S. Department of State, Washington, D.C. 20520-0001. If only a portion of the amount authorized is mailed, the sender must enter on the back of the license the amount being shipped and present it at the post office, where it will be postmarked and returned to the sender.

550 Dried Whole Eggs

551 Description

When dried whole eggs purchased under a program of the Commodity Credit Corporation, U.S. Department of Agriculture, are offered for export by mail, an endorsement must be written or stamped on each package and a special certificate of mailing (see 552) prepared and completed by the sender waiving any right to withdraw the package from the mail or to have it returned. Such mailings can be made only by parcel post.

552 Charges

Treatment of Inbound Mail

710 U.S. Customs Information

711 Customs Examination of Mail Believed to Contain Dutiable or Prohibited Articles

711.1 What is Subject to Examination

All mail originating outside the customs territory of the United States (i.e., outside the 50 States, the District of Columbia, and Puerto Rico) is subject to customs examination, except the following:

a. Mail addressed to Ambassadors and Ministers (Chiefs of Diplomatic Missions) of foreign countries.

b. Letter mail known to contain or believed to contain only correspondence or documents addressed to diplomatic missions; or to the officers of diplomatic missions; and to international organizations designated by the President as public international organizations pursuant to the International Organizations Immunities Act; and other mail addressed to such international organizations pursuant to instructions issued by the U.S. Department of the Treasury.

c. Mail known to contain or believed to contain only official documents addressed to officials of the U.S. Government.

d. Refer to DMM 115.9 for examination procedures to be followed for mail addressed for delivery in the Virgin Islands, American Samoa, the Northern Mariana Islands, Guam, and Puerto Rico.

711.2 Treatment of Mail Believed to Contain Dutiable or Prohibited Articles

.21 Treatment at Exchange Offices

.211 Mail believed to contain articles liable to customs duty or prohibited articles is submitted immediately to local Customs officers, except when exchange offices are authorized to redispach such mail to designated distribution offices for customs treatment.

.212 Exchange offices which redispach mail for submission to Customs offices will attach Tag 10 (previously Label 81) to the label holders or hasps of sacks or pouches. Tag 10 is a reusable pink slotted tag, bearing the words *This sack contains mail supposed liable to customs duty*.

.22 Treatment at Distribution Offices

.221 Distribution offices will submit mail believed to contain articles liable to customs duty or prohibited articles to Customs officers as soon as possible after receipt.

.222 Quantities of reusable Tag 10 which have been removed from sacks containing such mail should be returned periodically. These tags should be sent to the postmaster at either New York, New Orleans, San Francisco, Seattle, or Miami, as may be appropriate from a geographic standpoint.

.23 Priority Treatment of Airmail

Airmail items receive preferential Customs treatment and are submitted to Customs separately from surface mail. Upon return

from Customs, airmail items will be dispatched by air, if that can expedite delivery.

711.3 Examination of Registered Mail and Sealed Letter Class Mail

The postmaster or other designated postal employee must be present when registered mail and sealed letter class mail (except unregistered sealed letter class mail bearing a green Customs label) is opened by Customs officers for examination. After Customs treatment, the Customs officer will repack and reseal the mail.

711.4 Extraction of Samples for Advisory Information

Should a Customs officer wish to obtain advisory information from a local trade expert or from the Customs Information Exchange, permit him to extract a sample of the contents. The Customs officer will furnish the postal official with two copies of Customs Form 6423, *Notice of Damage, Shortage, or Samples Retained and Notice to Call for Samples* - one for enclosure in the package and the other for the post office files. If the sample is to be forwarded to New York, dispatch it under official registration to the Postmaster, New York, NY 10001-0998, for delivery to the Customs Information Exchange, U.S. Customs House, 6 World Trade Center, New York, NY 10048-0001.

711.5 Treatment of Mail After Customs Examination

.51 Repacking After Customs Examination

.511 Responsibility of Customs and Postal Employees

Customs employees are responsible for repacking and resealing mail of foreign origin after Customs examination. Postal employees accepting mail which has been in Customs custody for examination must determine from external inspection whether the mail can safely bear further handling and transportation. Customs employees are responsible for restoring mail which is not in satisfactory condition.

.512 Customs Shipments in Bad Order

Shipments found to be in bad order in transit or at the delivery office must be reconditioned by postal employees. After reconditioning such mail, the employee should note, over his signature on the address side of the wrapper, the bad order and any evidence of rifling or damage.

.52 Marking After Customs Examination

.521 Any mail, except printed matter, which has been examined by Customs will bear either (1) an endorsement such as *Passed Free U.S. Customs*, indicating that the mail does not contain dutiable articles, or (2) the red adhesive Treasury Department envelope containing Customs Form 3419, *Customs Mail Entry*, indicating that the mail does contain dutiable articles.

.522 The U.S. Customs Service does not endorse nondutiable printed matter (such as magazines, newspapers, circulars, and books). If printed matter is dutiable, it will bear the red adhesive envelope containing Customs Form 3419.

711.6 Failure to Receive Customs Treatment**.61 Forwarding**

Unsealed mail (see DMM 115.232) which appears to contain dutiable merchandise or prohibited articles, but not to have received Customs treatment, should be labeled *For Customs Inspection* and sent:

a. If unregistered, under cover to the nearest Customs office listed in 711.62:

b. If registered, to the postmaster of the city where the Customs office is located so that the mail may be handled in accordance with 711.3.

.62 U.S. Customs Offices

Customs officers at the following locations are authorized (1) to give Customs treatment to mail which has passed through the port of entry without being examined (see 711.61), and (2) to consider protests by addressees who are dissatisfied with the assessed value, rate, or amount of duty charged (see 713.23):

712 Customs Clearance and Delivery Fee

712.1 Description

.11 Post offices must collect a fee from the addressee for each item on which Customs duty or Internal Revenue tax is collected. The fee is authorized by international postal agreements to reimburse the USPS for costs it incurs clearing items through Customs and collecting Customs duties at the time of delivery.

.12 The fee is collected for each item on which duty or tax is paid by the addressee, even if several items are covered by a single mail entry form.

.13 The fee also applies when post office service is given for formal entry items on which importers pay the customs charges directly to the U.S. Customs Service.

.14 The fee, which is retained by the U.S. Postal Service, is accounted for by affixing postage-due stamps to the articles or to a postage-due bill and canceling.

.15 See 713.46 concerning the recording and reporting of Customs duty collections.

712.2 Items Exempted from Fee

Post offices will not collect a Customs clearance and delivery

fee in the following cases:

- a. On dutiable items from overseas U.S. post offices (civil or military).
- b. On parcels assessed with duty which are delivered without collection of duty under 713.233e.

712.3 Amount of Fee

The Customs clearance and delivery fee for each dutiable item is \$2.70.

712.4 Fee Not Refundable

The Customs clearance and delivery fee is not refundable by the U.S. Postal Service even though the U.S. Customs Service may later refund the duty paid by the addressee.

713 Treatment of Dutiable Mail at Delivery Office

713.1 Detection and Dispatch of Dutiable Mail

.11 Detecting Dutiable Items

Postal employees will promptly examine all inbound mail to detect dutiable items. Dutiable mail will bear the *Original and Addressee Receipt* copies of Customs Form 3419, *Customs Mail Entry*, which is enclosed in a red adhesive Treasury Department envelope attached to the wrapper or envelope.

.12 Dispatch to Delivery Units

Dutiable mail will be forwarded promptly to delivery units.

713.2 Delivery of Dutiable Mail

.21 Delivery Methods

.211 Dutiable mail will be delivered by city and rural carriers and by window delivery units.

.212 Form 3849-A, *Delivery Notice or Receipt*, and its supplement, Form 3849-B, *Delivery Reminder or Receipt*, are used to notify addressees of the arrival of dutiable mail.

.22 Delivery Procedures

.221 Charging Delivery Employee

a. Charge mail and both copies of Customs Form 3419 (see 713.11) to the delivery employee on Form 2944, *Receipt for Customs Duty Mail*, prepared in duplicate. For control and auditing purposes, enter on Form 2944 the mail entry numbers as shown on Customs Form 3419. Retain both copies of Form 2944 at the post office as a record of the employee's accountability.

b. Supply the delivery employee with proper postage-due stamps for use in collecting the Customs clearance and delivery fee prescribed in 712.

.222 Addressee's Examination of Dutiable Mail

Addressees are not permitted to examine the contents of dutiable mail until the duty has been paid.

.223 Signing Customs Entry Forms

When Customs charges are collected and delivery is made, the delivery employee will follow this procedure:

a. Obtain the addressee's signature and date of delivery on the *Original* copy of Customs Form 3419, as well as on the receipt for registered or insured mail (if applicable).

b. Sign and date the Addressee Receipt copy of Customs Form 3419 and give it to the addressee as a receipt for the duty paid.

c. Turn in the amount collected with the signed *Original* of Customs Form 3419. Turn in any undelivered mail with both copies of Customs Form 3419.

.224 Clearing Delivery Employee

a. *Post Offices With 950 or More Revenue Units.* The carrier's accountability will be cleared by a clearing clerk, who will complete both copies of Form 2944, prepared pursuant to 713.221, and give them to the carrier. The carrier will deposit the original copy of the form in the slotted and locked receptacle provided for that purpose and file the duplicate copy, which he will retain for 3 months after the last day of the month of issue. The original copies of Form 2944 can only be removed from the locked receptacle by a supervisor or employee other than the clearing clerk, and must be forwarded daily to the chief accountant or other designated employee. Employees at delivery windows who have been charged with dutiable mail will be similarly cleared but, in addition, will be required to execute a new Form 2944 covering all dutiable mail remaining in their custody at the close of business.

b. *At other post offices.* The delivery employee's accountability will be cleared in the same manner as for domestic *COD* transactions.

.23 Addressee Protests Duty Charged

.231 Alternatives Available to Addressee

When an addressee objects to the assessed value, rate, or amount of duty charged, the following alternatives are available:

a. Addressee may take delivery, pay the duty and postal fees, and protest (within 90 days from the date duty is paid) directly to the issuing Customs port.

b. Addressee may definitely refuse the mail, if he does not wish to pay the duty or to protest the duty assessment.

c. Addressee may conditionally refuse the mail pending review of the entry by the U.S. Customs Service.

Postal procedures for alternatives (b) and (c) are described in 713.232 and 713.233.

.232 Definite Refusal of Dutiable Mail

If the addressee elects alternative (b) in 713.231, the delivery employee will make it clear to the addressee that the mail will be disposed of immediately as undeliverable. Then, the delivery employee will mark the mail *Refused*, date and initial it, and return it with both copies of Customs Form 3419 (see 713.11) to the post office for disposal (see 713.51).

.233 Conditional Refusal of Dutiable Mail

If the addressee elects alternative (c) in 713.231, the postal procedure is as follows:

a. Delivery employee will advise addressee to submit his protest in writing to the postmaster. It should be accompanied by any evidence he may have which will substantiate his claim (i.e., invoice, declaration of value, etc.). The addressee should include the customs mail entry number from Customs Form 3419 and any other particulars which will assist in relating his protest to a specific item of mail at the post office.

b. Delivery employee will mark the mail *ADDRESSEE PROTESTS DUTY*, date and initial the notation, and return the mail with both copies of Customs Form 3419 to the post office to await receipt of the addressee's written protest.

c. If the addressee's written protest is not received *within 5 days* after the mail has been returned to the post office, notify the addressee that the mail is on hand and will be held for only 5 more

days. Mark the mail *NOTIFIED* and date it. If the addressee does not furnish the required statement within another week, endorse the mail *UNCLAIMED*, and date and treat it as prescribed in 713.3 or 713.5, as appropriate.

d. On receipt of the addressee's written protest, the post office will promptly:

(1) Prepare report, in duplicate, on Form 2937, *Importer's Objections*.

(2) Forward original of Form 2937, with supporting statements and both copies of Customs Form 3419, to the Customs mail division where Customs Form 3419 was prepared, unless the addressee is located in the vicinity of one of the Customs offices listed in 711.62. In the latter case, the original of Form 2937, both copies of Customs Form 3419, and the other documents may be sent to the local Customs office for consideration of the protest.

(3) Retain the mail with the duplicate of Form 2937 and await the decision of the Customs office. If the Customs office requests that the mail be submitted for inspection, it should be forwarded immediately.

e. If an adjustment is made by the Customs officer, he will endorse the adjustment on both copies of Customs Form 3419 and return them with the original of Form 2937 to the postmaster. When the package is delivered, the delivery employee will collect and report the corrected amount of duty and handle as prescribed in 713.46. If the adjusting Customs officer waives the duty, the mail will be reported as an uncollected item, as prescribed in 713.52.

f. If no decision on a protest is received from the Customs office within 30 days, request that the matter be expedited. Continue to hold the mail until a decision is received.

713.3 Forwarding or Returning Dutiable Mail

.31 Forwarding Dutiable Mail Within the U.S.

.311 Forward dutiable mail as prescribed in 774.1. Allow Customs Form 3419 to remain attached to the redirected mail in its original envelope, which is also redirected to the new address.

.312 Prepare Form 3814, *Record of COD Parcels Held for Delivery*, in duplicate, showing the name and address of the addressee, forwarding address, and name of port where the duty was assessed. In Bin No. block on Form 3814, enter the 7-digit serial number from related Customs Form 3419.

.313 Mail the original of Form 3814 to the Director, Data Processing Services Division, U.S. Customs Service, 1301 Constitution Avenue, Washington, DC 20229-0001. File the duplicate of Form 3814 for reference in case of later inquiry.

.32 Forwarding Dutiable Mail to Another Country

.321 When dutiable mail is entitled to be forwarded to another country, detach both copies of Customs Form 3419, endorse them *Addressee Moved Outside Jurisdiction of the United States*, and report the mail as an uncollected item, as prescribed in 713.52.

.322 See 774.2 concerning procedures for forwarding mail.

.33 Returning Dutiable Mail to Sender

.331 When dutiable mail is to be returned to the sender, detach both copies of Customs Form 3419; endorse them *Refused, Unclaimed, etc.*; and report the mail as an uncollected item as prescribed in 713.52.

.332 See 782 for procedures for returning mail.

.34 Forwarding or Returning Dutiable Mail By Stations and Branches

Postmasters may authorize stations and branches to forward or return mail directly from those units, without sending the mail to the main office.

713.4 Payment of Customs Duty

.41 Rate Information

Customers desiring information concerning rates of duty or other Customs procedures should communicate directly with the nearest Customs office (see 711.62) or with the Commissioner of Customs, U.S. Department of the Treasury, Washington DC 20229-0001.

.42 Prepayment of Customs Duty Abroad

No provision is made for the prepayment abroad of Customs duty on mail shipments addressed for delivery in the United States.

.43 Registration of Items to be Returned to the United States

.431 Before sending an item abroad for alterations, repairs, use, or replacement, the owner should submit it to a Customs officer for issuance of a *Certificate of Registration (Customs Form 4455)*. Otherwise, the package may be subject to a Customs duty when it is returned to the United States.

.432 Due to the lack of Customs offices in many parts of the country, customers often are unable to have items registered with the U.S. Customs Service before sending them aboard, or are able to do so only after considerable expense and inconvenience. As a service to postal customers, postmasters—or employees they designate—may certify the exportation of items mailed abroad for alteration, repair, use, or replacement under the following conditions.

a. The customer must live more than 20 miles from a Customs office. In addition to those listed in 711.62, there are a number of other Customs locations throughout the country. A customer who lives within 20 miles of any Customs office must have the item certified by a Customs officer.

b. The customer must present the item(s) to be exported in an open state. The package must be accompanied by an original and duplicate copy of Customs Form 4455, which is completed and signed by the sender, and a Customs declaration form(s) appropriate to the class of mail. (See 123 for declaration requirements.) Customers may obtain Customs Form 4455 from any Customs office.

c. The postmaster or designated postal employee must check to see that the description of the item to be exported is the same on both Customs Form 4455 and the Customs declaration form. If the description is the same, he certifies to the mailing (lading) by completing the Signature of Customs Officer space on both copies of Customs Form 4455. A *Certificate of Mailing* fee of 45 cents must be charged and accounted for by affixing postage stamps to the original and duplicate copies of Customs Form 4455 and canceling each stamp with the post office date stamp.

d. Both copies of Customs Form 4455 must be returned to the customer. The customer must insert the original in the package so that the foreign addressee can return it with the merchandise. The customer should retain the duplicate for possible use in clearing the merchandise upon its return.

e. After the customer has inserted the original Customs Form 4455, he must secure and seal the package and return it to the acceptance employee who will handle it in the usual manner.

.44 Return of Audio-Visual Materials

Customs Form 3311, *Declaration for Free Entry of Returned American Products and/or Certificates of Exportation*, should accompany outbound shipments of educational films sent to foreign addressees on a loan or rental basis. By enclosing Form 3311, the mailer is indicating that the contents of the shipment are eligible for duty-free handling and classification upon re-entry into the United States. This procedure is applicable to shipments of educational films valued at \$250.00 or less, which have been produced in the United States and are returned through the mail by foreign consignees. Customs Form 3311 can be obtained at any Customs Service office.

.45 Assessment of Duty in Foreign Countries

The assessment of Customs duty in foreign countries is outside the control of the U.S. Postal Service. Postal employees must not attempt to inform customers whether any items—either gifts or commercial shipments—will be subject to Customs duty. It may be suggested to customers, however, that they inform the addressee before they mail so that the latter may determine whether those items are dutiable. No provision is made for prepayment of Customs duty on mail addressed for delivery in foreign countries.

.46 Recording and Reporting Collections

Post offices making delivery/collection of dutiable mail will deposit the Customs collections with postal funds. (See Handbook F-1, *Financial Handbook for Post Offices*, for accounting and control functions, and the preparation of Form 2932, *Customs Collection Summary*.)

713.5 Treatment of Uncollected Items

.51 Disposal of Uncollected Items

When it is definitely established that a dutiable package is undeliverable, detach both copies of Customs Form 3419, *Customs Mail Entry*, and treat the packages as prescribed in 780. Mark the mail entry forms to show the reason for nondelivery, and report as prescribed in 713.52.

.52 Reporting of Uncollected Items

.521 Complete Form 2933, *Register of Uncollected Customs Charges*, in duplicate, listing uncollected items in numerical order according to the 7-digit serial numbers on Customs Forms 3419.

.522 Forward the original Form 2933, with both copies of Customs Form 3419, to the Regional Commissioner of Customs, Attention: Financial Management Division, U.S. Customs House, 6 World Trade Center, New York NY 10048-0001. If supporting Customs Form 3342, *Declaration for Free Entry of Gifts and/or Authorization to Postmaster to Delivery Mail Importation Conditional Free of Duty*, or other statements are necessary, they must be forwarded with the original Form 2933 and copies of the Customs Form 3419 sent to the Regional Commissioner of Customs.

.523 File duplicate Form 2933 for reference purposes.

.524 Prepare reports as needed, but not less frequently than weekly.

.53 Past-Due Entries

When the U.S. Customs Service fails to receive a remittance of duty or report of disposition made of a dutiable package, the postmaster will receive a set of reproduced copies of Customs Form 3419. In this circumstance, a search should be made at the post office of address and a report of its findings made to the

Regional Commissioner of Customs at the address shown in 713.522.

.54 Detached Customs Mail Entries

When a detached Customs Form 3419 is found, attempt to locate the related package and attach the form to it. If the package cannot be located, send Form 3419 to: U.S. Customs Service, Accounting Division, 1301 Constitution Avenue, N.W. Washington DC 20229-0001.

713.6 Refund of Customs Duty

.61 Action by Postmaster

.611 Amounts collected on Customs Form 3419 are not refundable by postmasters. An addressee who requests a refund of duty should be advised to make application to the Customs office which issued the mail entry forms *within 90 days* from the date the duty is paid. If a refund is claimed for damage, it is suggested that the package be forwarded with the application. Any addressee wishing to abandon the package to the Government should so state in the application.

.612 If the addressee wishes to request a refund of duty from the Customs Service and intends to file an indemnity claim with the Postal Service, he must present the contents, container, and complete wrapping to the postmaster for the inspection in conjunction with the preparation of Form 2855, *Claim for Indemnity-International Registered and Insured Mail*.

Following this inspection, the postmaster accepting the claim will provide the claimant with a statement to the effect that:

- a. The Postal Service has accepted the damage claim and has received the abandoned merchandise;
- b. The package and its wrapper and contents with no commercial value have been presented to and retained by the Postal Service; and
- c. The documents, including the customer's yellow receipt copy of Customs Form 3419 indicated that Customs duty in the stated amount was paid by the customer.

This statement, which is to be provided to the customer by the postmaster, is to accompany the customer's application to the Customs Service for refund of duty. If this statement accompanies the application, the presentation of the abandoned articles is not required by the Customs Service.

.62 Refunds by Customs Service

.621 Refund of Duty on Abandoned Merchandise

A request for refund of duty paid will be considered by the Customs Service when merchandise covered by Customs Form 3419, *Customs Mail Entry*, is abandoned, provided:

- a. The abandoned merchandise presents 5 percent or more of the total value of all merchandise of the same class or kind entered in the invoice in which the item appears.
- b. The abandoned merchandise is delivered to the Customs office where the Customs Form 3419 was issued, within 90 days of the date of delivery (unless the Secretary of the Treasury authorizes a longer time in writing.)

.622 Refund of duty on Returned Merchandise

a. The refund of duty paid "less 1 percent" will be considered by the Customs Service when merchandise covered by Customs Form 3419, *Customs Mail Entry*, is returned, provided:

- (1) The returned merchandise does not conform to the sample or specification, or has been shipped without the consent of the consignee.

(2) The returned merchandise is delivered to Customs Service custody for exportation within 90 days of the date of delivery (unless the Secretary of the Treasury authorizes a longer time in writing).

- b. The postal charges incident to returning the merchandise to the sender must be paid by the addressee.

.623 Refund of Duty on Goods Lost En Route

The Customs Service will not refund the duty paid when goods are lost en route after an addressee has paid the Customs duty at the post office and requested that delivery be made at his residence or place of business. In addition, the Postal Service does not make any refunds of Customs duty.

.624 Refund of Duty as Drawback on Exported Merchandise

See 580 for drawback arrangements.

720 Plant and Animal Quarantine Inspection

721 What is Subject to Inspection

All packages which contain plants, plant products, soil, plant pests, plant material used for packing, animals, animal products and byproducts, including meats, are subject to agricultural quarantine inspection by the U.S. Department of Agriculture (see DMM 115.92).

722 Segregation and Handling

722.1 Treatment of Packages Labeled for Inspection

.11 Dispatch packages bearing green and yellow or red and white address labels to the Agriculture Department inspection points shown on the labels.

.12 After the packages are inspected and cleared, they will be stamped *Released* or *Treated and Released*, redirected to the addressees, and returned to the mail for delivery.

722.2 Treatment of Packages Exempt From Inspection

Undamaged packages bearing the Agriculture Department label *Importation Authorized*, should be forwarded directly to the post office of address. If packages bearing this label are damaged, recondition them, if necessary, and forward for agricultural inspection as prescribed in 722.3.

722.3 Treatment of Unauthorized Importations

Mark "For Agricultural Quarantine Inspection" on packages containing the articles listed in 721 but not bearing any Agriculture Department labels or inspection stamps. Forward them under seal to the postmaster at the most accessible location listed in 723.

722.4 Packages Containing Prohibited Material

Upon inspection, packages found to contain prohibited agricultural material are either (1) released for delivery after removal of the prohibited contents and insertion of a notice by the inspector or (2) marked *Refused Entry* (or a similar notation) and returned to origin.

730 Shortpaid Mail to USA

731 Computation of Postage Due

- a.

The postal service of the country of origin identifies and marks shortpaid mail with a T stamp. Next to the T is a fraction which consists of the amount of postage deficiency (expressed in its own currency) divided by the country's international surface letter rate at the first increment.
- b.

The receiving exchange office in the United States multiplies the T fraction by the U.S. international surface letter rate to determine the shortpaid amount in U. S. currency. This amount plus a 42-cent handling charge accounts for the postage-due amount to be collected on delivery. The postage-due formula is:
- T shortpaid amount

x

U.S. international surface

surface letter rate of postage to U.S.

letter rate
- =

Postage deficiency in U. S. currency
- +

42-cent handling charge
- =

Postage due amount
- c.

The receiving exchange office in the U.S. will apply stock rubber stamp R-1300-4, *Postage Due. . .Cents*, and enter the amount of postage due.

- d.

The delivery office will collect postage-due mail in accordance with DMM 146.3 and Handbook F-1, *Financial Handbook for Post Offices*.

732 Shortpaid Letters and Cards from Canada

Shortpaid mail from Canada is marked with a T in a circle with the actual amount to be collected entered in the circle. No handling charge is assessed or collected on shortpaid mail from Canada.

733 Shortpaid Items Bearing U.S. Postage

If an item bears U.S. postage, the delivery office must allow credit for its value when postage due is collected.

740 Irregular Mail

741 Invalid Foreign Postage

Foreign mail bearing invalid postage is accompanied by international Form C 10 (issued in the country of origin) and is rated as unpaid. The addressee is asked to (1) pay the postage due, (2) disclose the name and address of the sender, and (3) surrender the envelope. After the delivery, the post office will send the envelope — or the entire article if the addressee refuses it — with the Form C 10 and the name and address of the sender (if disclosed by the addressee) to the International Mail Classification Division, Office of Mail Classification, Rates and Classification Department, U.S. Postal Service, Washington, DC 20260-5365.

742 Unauthorized Letters Enclosed

742.1 When a personal communication is found in printed matter, matter for the blind (unless imprinted in Braille), small packets, or parcels, mark the wrapper *Letter Enclosed - Collect . . . Cents*, and send the parcel forward to its destination. The amount to be collected will be double the amount of letter class postage (surface or air) applicable to the first weight step for a letter sent from the U.S. to the country where the item originated.

742.2 The office endorsing the item must indicate the amount to be collected. The delivery office must collect the amount from the addressee by means of postage-due stamps.

742.3 No systematic search for such letters should be made.

743 Stamps Not Affixed

743.1 Some items of foreign origin do not bear postage stamps, but instead are marked *Postage Paid. On Postal Service, Service des Postes, Taxe Percue or TP, Port Paye or PP* followed by postmark. The marking *On Her Majesty's Service or O.H.M.S.* is also sometimes used. Treat this mail as prepaid.

743.2 Some foreign post offices do not put postage stamps on parcels. All such parcels received must be regarded as prepaid.

744 Parcels Addressed Through Banks or Other Organizations

744.1 If a parcel is addressed to a bank or other organization for delivery to a second addressee, the post office will notify both addressees of the arrival of the parcel and will then deliver it to the first addressee, or hold it if the first addressee so requests. If the parcel is held, the post office will deliver it to the second addressee only with written permission from the first addressee, unless the sender has arranged for a change of address as provided in 360. If delivery to the second addressee involves forwarding the parcel to another post office, the parcel will be subject to forwarding postage as provided in 774.13

744.2 After delivery to the second addressee, the post office will keep the first addressee's written authorization for 1 year, in case of inquiry. Authorizations will be filed as follows:

- a. For insured parcels: with addressees' receipts.
- b. For uninsured parcels: in any appropriate place.

745 Foreign Dispatch Notes

745.1 If parcels are received at delivery offices with dispatch notes (*bulletin d'expédition*) attached, deliver these notes with the parcels. Although dispatch notes have a space provided for the addressee's acknowledgement of receipt, they do not require signature. They must not be confused with foreign return receipts (*avis de réception*), which are completed as prescribed in 753.1.

745.2 If a parcel is returned as undeliverable, the post office will mark the dispatch note as well as the wrapper to show the reason for nondelivery and leave the dispatch note attached to the parcel.

745.3 Dispatch notes which cannot be associated with accompanying parcels may be disposed of as waste.

750 Special Services

751 Insured Parcels

751.1 Identification

.11 A number on a parcel is not sufficient evidence of insurance. An insurance endorsement is also required.

.12 The following are insurance endorsements which may appear on inbound insured parcels, depending on the language of the country of origin.

- a. *Insured*
- b. *Asegurado or Valor Declarado*
- c. *Assicurato or Valor Dichiarato*
- d. *VD or Valeur Declaree*
- e. *Wertangabe or Wertpaket*

751.2 Delivery

Deliver international insured parcels in accordance with DMM 913.5. The retention period for parcels is set forth in 761.

751.3 Indemnity Claims and Payments

For detailed information concerning indemnity claims and payments for lost, rifled, or damaged insured parcels, see 930.

752 Registered Mail

752.1 Identification

.11 A number on an item of mail is not sufficient evidence of registration. A registry endorsement is also required.

.12 The following are registry endorsements which may appear on registered mail, depending on the language of the country of origin.

- a. *Certificado*
- b. *Einschreiben*
- c. *R or Registered*
- d. *Raccomandata*
- e. *Recommande*
- f. *Registo or Registrado*

.13 All mail registered by the country of origin must be given the same handling as domestic registered mail.

Exception: Inbound registered printed matter from countries other than Canada must be removed from the registered mail system and given the same handling as domestic certified mail.

.14 Any item without evidence of formal registration must be treated as ordinary mail. A sender's registry endorsement on such articles must be crossed out.

752.2 Treatment by Office of Delivery

.21 Delivery

Record and deliver in accordance with DMM 911.4. The retention period for undeliverable mail is set forth in 761.

.22 Mail Unaccounted for After Assignment for Delivery

.221 When an item of registered mail assigned for delivery is not properly accounted for, make a record of the available facts concerning the item and file the report, pending a possible inquiry.

.222 If an inquiry is received from the sender (see 928.24), ask the addressee whether the item was received. If the item was not received, make a full report promptly to the appropriate postal inspector in charge.

752.23 Indemnity Claims and Payments

For detailed information concerning indemnity claims and payments for lost, rifled, or damaged registered mail, see 930.

753 Return Receipt

753.1 Completion of Return Receipt Form

Inbound registered or insured mail for which the sender requests advice or confirmation of delivery will be endorsed with the words *AVIS DE RECEPTION* or with the letters *A.R.*, and be accompanied by a light red or pink card similar to Form 2865, *Return Receipt for International Insured or Registered Mail*. The office of delivery must complete the receipt as follows:

- a. Have the addressee or his authorized agent date and sign the receipt with INK. When signed by an agent of the addressee, have the agent sign the addressee's name, followed by his own signature.
- b. Postmark the receipt in the appropriate spaces on both sides.
- c. Endorse the completed receipt AIRMAIL and dispatch it as unregistered mail.

753.2 Foreign Receipt Form Missing

When inbound registered or insured mail is marked *A.R.* or bears the notation *Avis De Reception* but is not accompanied by a receipt form, the delivery office must complete and attach a pink Form 2865.

754 Restricted Delivery

754.1 Inbound registered mail, accompanied by a return receipt and bearing the notation *A Remettre en Main Propre* or *Restricted Delivery*, should be delivered only to the addressee.

754.2 Failing delivery on the first attempt, a second attempt must be made to deliver this mail, if it is likely this attempt will be successful. See 780 for the treatment of undeliverable inbound mail.

755 Special Delivery

755.1 Inbound items prepaid for special delivery should bear a label, printed in red or on a red background, containing the word

Expres, or bear the endorsement *Expres* or *Special Delivery* in bold letters.

755.2 An item which does not bear the *Expres* label or endorsement should be delivered as special delivery mail, if it bears U.S. special delivery stamps sufficient to cover the domestic special delivery fee.

755.3 Inbound special delivery items should be delivered in the manner prescribed in DMM 915.6.

756 Recall and Change of Address

756.1 If a request is received for correction of address (without changing the addressee), post offices may comply with the request and may forward the mail to the same addressee at another U.S. post office, without previous authorization from Headquarters. Comply with 774.13 in forwarding parcels.

756.2 If a request is received for redirection of a piece to another country, or for return to origin, or for change of addressee, hold the mail and refer the request to the International Mail Classification Division, Office of Mail Classification, Rates and Classification Department, USPS Headquarters, Washington, DC 20260-5365.

760 Storage

761 Retention Period

761.1 General Procedure

Post offices must hold international mail items for pickup by the addressee for 30 days.

761.2 Exceptions

.21 An item refused or known to be neither deliverable nor forwardable must be treated as undeliverable immediately.

.22 Items with *sender's* request for return within a specified period may be held for the period specified not to exceed 60 days.

.23 Items not subject to storage charge (see 762.1), which have no time limit for return, may be held for up to 60 days when there is good reason to believe they can be delivered to the addressee. These articles must be marked: *Specially Held For Delivery*.

.24 Letter packages and printed matter packages with no time limit for return will only be held beyond 30 days if the addressee, or someone acting on his behalf, pays the storage charges due at the end of the first 30-day period. Thereafter, accumulated storage charges must be collected every 10 days (see 762.4).

.25 Parcels with a written request of addressee, or someone acting on his behalf, may be held for up to 60 days, provided that the storage charges due at the end of the first 30-day retention period are paid at the time of the request and that the storage charges (see 762.4) accumulating thereafter are paid every 10 days.

.26 An item conditionally refused by the addressee because of the duty assessed (see 713.233 for the procedure when the addressee asks to have the duty reconsidered by the U.S. Customs Service) is held until the Customs office gives a decision on the protest. If no decision is reached within 30 days, the Customs office should be asked to expedite its decision.

.27 An item returned from Customs custody with advice that the addressee has not complied with required Customs entry procedures must be treated as undeliverable immediately.

.28 A parcel bearing the sender's request for delivery to an alternate addressee must be held 15 days at the disposal of the

first addressee and 15 days at the disposal of the second. If the alternate addressee is at another post office, the parcel is forwarded subject to 774.1, and the 15-day period begins from the date of receipt at the second office of address. Under the circumstances given in 761.25, the parcel may be held for 30 days at the disposal of each addressee.

.29 A parcel from Great Britain which bears a request to *Return Forthwith to Sender at Sender's Expense* must be returned within 10 days, or immediately if definitely known to be undeliverable.

762 Storage Charges

762.1 Items Subject to Storage Charges

The following classifications of international mail are subject to storage charges:

- a. All parcels.
- b. Letter packages weighing over 1 pound.
- c. Printed matter packages weighing over 1 pound.

762.2 Marking

When one of the above items is returned to the post office after the first delivery attempt, or when a notice that the item is available for delivery is sent to the addressee, mark the wrapper *Storage Charges Begin . . .* and insert the date when the charges will begin to accrue. Rubber stamp item R-1300-296 is available to post offices for this purpose. See 782.4 concerning the marking of undeliverable parcels on which storage charges are due.

762.3 Collecting Charges

.31 When to Charge

.311 Storage charges begin on the sixth work day after the first delivery attempt has been made or the first notice of available delivery has been issued to the addressee. The days on which the post office is closed for business are not counted in determining the 5-day free storage period. However, after expiration of the free storage period, charges will be collected for each day thereafter that a parcel is on hand, including Saturdays, Sundays, national holidays, and the day on which delivery is effected.

.312 Storage charges are applied to parcels requiring customs clearance or formal customs entry which are held in post office custody. For formal entry parcels, the charges begin on the sixth work day after the date on which notice to file formal entry is mailed to the consignee (addressee), or on the sixth work day after receipt of the parcel at the office where it is to receive formal customs treatment if the customs notice has been issued at another customs port. Cooperation of Customs officers should be solicited to enable post offices to collect any storage charges which may accrue on formal entry parcels.

.32 When Not to Charge

.321 When an addressee protests the rate or amount of duty assessed (see 713.23), the time required for the addressee to submit his written objection is counted, but the time required for the U.S. Customs Service to reach a decision on the matter is not counted.

.322 Storage charges are not collected on parcels from overseas U.S. Military Post Offices nor on classifications *not* listed in 762.1.

762.4 Amount of Charges

After expiration of the 5-day free storage period prescribed in 762.311, charges apply as shown in exhibit 762.4.

762.5 Accounting for Charges

The charges are accounted for by affixing postage-due stamps to the parcel or to a postage-due bill and canceling. If there are several parcels for one addressee, separate charges apply to each parcel.

762.6 Parcels Held Beyond Usual Retention Period

See 761.25 concerning the collection of storage charges on parcels held beyond the usual retention period.

770 Forwarding

771 General Procedures

771.1 Items addressed to foreign countries generally will be forwarded to a new address of the addressee in the country of destination, subject to collection of redirection charges prescribed by the internal regulations of the country.

771.2 The original destination country may forward an item to a third country, if the item complies with the conditions required for its further conveyance, and the extra postage is paid at the time of redirection or the original destination country is satisfied that it will be able to recover the redirection charges.

771.3 The sender may forbid any forwarding by placing an endorsement to that effect on the wrapper in a language understood in the country of destination.

772 Mail of Domestic Origin

772.1 Addressee Moved to Another Country

.11 Letters and Postcards

Postcards and unregistered letters which do not appear to contain merchandise and do not bear a notice forbidding forwarding may be redirected to the original addressee in another country. Letters and cards are forwarded by air without prepayment of additional postage.

.12 Mail Other Than Letters and Postcards

Domestic mail (second-, third-, and fourth-class) addressed to a domestic addressee who has moved to another country must not be forwarded to another country but must be returned to the sender. Domestic mail which cannot be returned to the sender because of an incorrect, incomplete, illegible, or missing return address must be treated as dead mail and disposed of as provided in DMM 159. (See 772.2 for items bearing foreign return address.)

772.2 Undeliverable Domestic Mail Bearing U.S. Postage and a Foreign Return Address

a. Domestic letters which do not appear to contain merchandise and domestic postcards which bear the sender's request for return, must be returned to the foreign return address. Return is by surface mail only, and without prepayment of additional postage. Postcards not bearing the sender's request for return are disposed of as waste.

b. If a mailer places a foreign return address on registered or certified letter mail, he is requesting, in effect, that the letter be returned to the foreign return address if it is not deliverable at the U.S. address. Further, the mailer thereby agrees, in case of loss of a registered letter after dispatch from the United States, to the indemnity payment provisions of 934 regardless of the amount of registry fee paid.

c. Letters containing merchandise and third- and fourth-class parcels bearing a foreign return address must be held at the post office of the addressee and a request for instructions sent to the International Claims and Inquiries Office which handles inquiries for the country in which the sender is located (see 931.21). Requests must include the following information:

- (1) Names and addresses of sender and addressee.

- (2) Weight of the item and any special services.

- (3) Nature and value of the contents, if known.

The International Claims and Inquiries Office will contact the sender for disposition instructions, completion of the required customs forms, and payment of additional postage.

.22 Indemnity claims relating to International Express Mail are adjudicated by the International Mail Classification Division, Office of Mail Classification, Rates and Classification Department, U.S. Postal Service, Washington, DC 20260-5365.

.23 The indemnity is paid by the country of origin. Payments to U.S. senders will be made by the U.S. Postal Service.

932 General Exceptions to Payment - Insured Parcel Post and Registered Letter Post Mail

Indemnity may not be paid:

a. In excess of the limit prescribed for the insurance or registry fee paid or greater than that corresponding to the actual amount of loss (except registered mail), rifling, or damage. Allowance must be made for depreciation or for needed repairs, and in the absence of purchase receipts or invoices, the contents must be described in sufficient detail.

b. When an item cannot be accounted for due to the destruction of service records by "force majeure."

c. When the contents are prohibited. *Exception:* Indemnity may be made up to a maximum of \$20.40 for the contents of a registered item which is damaged or rifled when the item is mailed in the United States.

d. For an item seized by Customs or any other Government agency.

e. When no inquiry or application has been made by the claimant or his representative within a year, commencing with the day following the mailing of the item. In the case of insured mail with Canada, however, the time limit may be waived when it is satisfactorily established that the delay was unavoidable and not the fault of the claimant.

f. For damage which results from the characteristics of the contents — that is, its inability, due to its nature, to withstand the ordinary incidents of the contemplated carriage.

g. When full compensation or reimbursement has otherwise been made by the U.S. Postal Service or by any outside firm or corporation whatsoever except on a pro rata basis as co-insurer.

h. For sentimental values arising from association. Also, in the absence of a complete description, the claimant must satisfactorily establish the ordinary market value at the time of mailing, particularly in the case of heirlooms or antiques.

i. For an amount in excess of the maximum prescribed for the insurance or registry fee paid, unless responsibility rests with the United States and it is shown to the satisfaction of the Postmaster General that the sender was charged a fee less than that required to cover the amount of indemnity desired, through error on the part of the U.S. Postal Service. On such a showing, the deficiency in fee may be collected from the sender and postal indemnity paid, within the limit fixed for the higher fee.

933 Payments for Insured Parcel Post

933.1 General Provisions

.11 Indemnity may be paid for loss, rifling, or damage, based on actual value.

.12 In addition to the general exceptions to payment described in 932, indemnity may not be paid:

a. When other countries report delivery of parcels without external trace of rifling or damage and acceptance by the addressee or his agent without reservation concerning the condition of the contents, and when delivery was made under conditions prescribed by the domestic regulations of the country of destination for mail of the same kind or on presentation of a regular postal identity card.

b. When loss, rifling, or damage has been caused by the fault or negligence of the sender or the addressee or the representative of either, such as failure to endorse the parcel conspicuously to show the nature of the contents or to provide adequate

packing for the length of the journey and for the protection of the contents.

c. When the claimant, with intent to defraud, has declared the contents of a parcel to be above their real value.

d. For parcels which:

(1) Contain matter of no intrinsic value.

(2) Contain matter which did not conform to stipulations of the applicable postal conventions.

(3) Were not posted in the manner prescribed.

However, in the event of loss, rifling, or damage of mail erroneously accepted for insurance to other countries, limited indemnity may specially be paid as if it had been addressed to a domestic destination — that is, on the basis of the indemnity limits for domestic insured mail. If postage was erroneously collected at other than parcel post rates, but the parcel was otherwise properly accepted for insurance, indemnity may specially be paid pursuant to the general provisions of this section and the special provisions of 933.2.

e. For indirect loss or loss of profits.

f. For an amount in excess of the maximum prescribed for the insurance fee paid, unless full or partial responsibility rests with the other country and the sender requested full coverage at the time of mailing, but a deficient and unauthorized insurance fee was collected. In such case, the sender must be paid for full value, less the amount of the deficient fee, but not exceeding the limit fix for the appropriate insurance fee.

g. When evidence of insurance coverage has not been presented.

933.2 Special Provisions

.21 Parcels Forwarded or Returned to Third Country

The sender may be paid only such indemnity for loss, rifling, or damage occurring after redispach by the original country of address to a third country if the country in which the mistreatment occurred is willing or obliged to pay under any agreement between the countries involved.

.22 Items Prohibited Insurance to Canada

Indemnity may be specially paid, based on actual value, for loss, rifling, or damage of insured parcels addressed to Canada containing items prohibited insurance. (See the entry for Insurance in the individual country listing for *Canada*.)

934 Payments for Registered Mail

934.1 General Provisions

.11 Indemnity is paid by the country of origin of the registered item and is made in accordance with 934.2.

.12 If parcels are erroneously accepted as registered mail, limited indemnity may be specially paid under the conditions in 934.2.

.13 In addition to the general exceptions to payment described in 932, indemnity may not be paid:

a. To anyone in the United States, other than the sender, for loss, rifling, or damage of a registered item, except on consent of both the sender and the country of origin.

b. In excess of the limits prescribed in 934.2 for domestic registered letters bearing foreign return addresses which are forwarded pursuant to 772.2b.

934.2 Special Provisions

.21 Limitations

With the exception of Canada, payment of indemnity for loss, damage, or rifling of registered mail is limited to \$20.40.

.22 Canada

a. For loss, damage, or rifling of registered mail to Canada, indemnity may be paid not to exceed \$200, based on actual value, for loss (contents and wrapper).

b. When mailed in the United States, payment may also be made up to \$200, based on actual value, for damage or rifling of contents:

(1) If responsibility rests with the United States; or

(2) If it is not possible to determine in which country the damage or rifling occurred.

935 Payments for Express Mail International Service

935.1 When Authorized

Express Mail International Service (EMIS) shipments are covered by document reconstruction and merchandise insurance in case of loss, damage, or rifling. Indemnity will be paid by the Postal Service as specified in DMM 294, except as provided in 935.2.

935.2 When Prohibited

Indemnity for Express Mail International Service items will *not* be paid:

a. For delay in delivery.

b. When the contents are prohibited.

c. For an item seized by Customs or any other Government agency.

d. When no inquiry or claim has been made by the mailer within 90 days from the date of mailing.

e. For damage which results from the quality of the contents; that is, its inability, due to its nature, to withstand the ordinary incidents of International Express Mail carriage.

f. When delivery was made under conditions prescribed for International Express Mail items by the country of destination.

g. When the items were not mailed in the manner prescribed. However, in the event of loss, rifling, or damage of items erroneously accepted, indemnity may be paid.

h. When evidence of mailing has not been presented.

940 Postage Refunds

941 Refunds for Postal Union Mail and Parcel Post

A refund may be made when postage, special service fees, or other charges have been paid on items of international mail:

a. For which full service was not rendered, or

b. Which were paid in excess of the proper rate.

942 Refunds for Express Mail International Service

942.1 Requests for refunds of postage may be filed only by the mailer. Such requests must be made within 90 days of the date of mailing.

942.2 The Postal Service will refund postage for Express Mail International items when total loss, total rifling, or total damage is involved.

942.3 Postage refunds will not be made for delayed Express Mail International items.

943 Applications By Senders

Senders requesting refunds should submit to the postmaster:

- a.* An application on Form 3533, *Application and Voucher for Refund of Postage or Fees*, in duplicate.
- b.* The envelope or wrapper, or the portion thereof having names and addresses of sender and addressee, canceled postage, and postal markings.

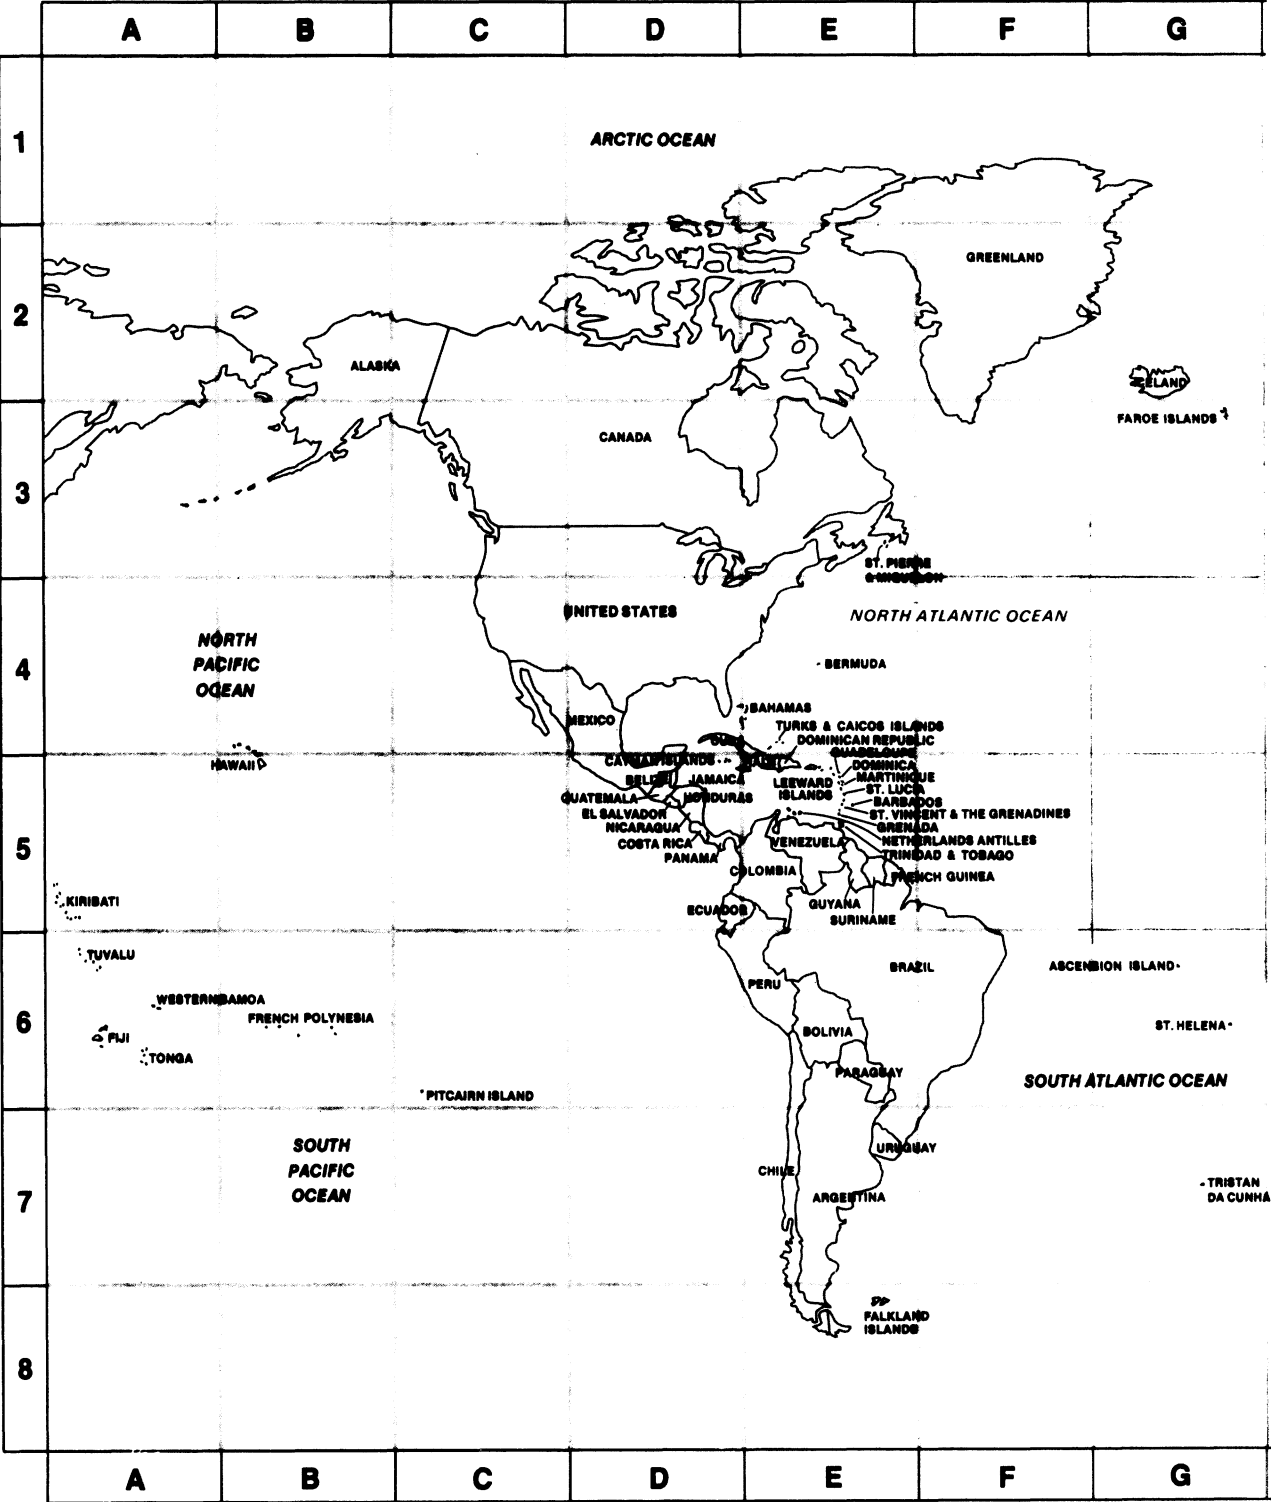

- c.* Any other evidence of payment of the amount of postage, fees, or charges for which refund is desired.

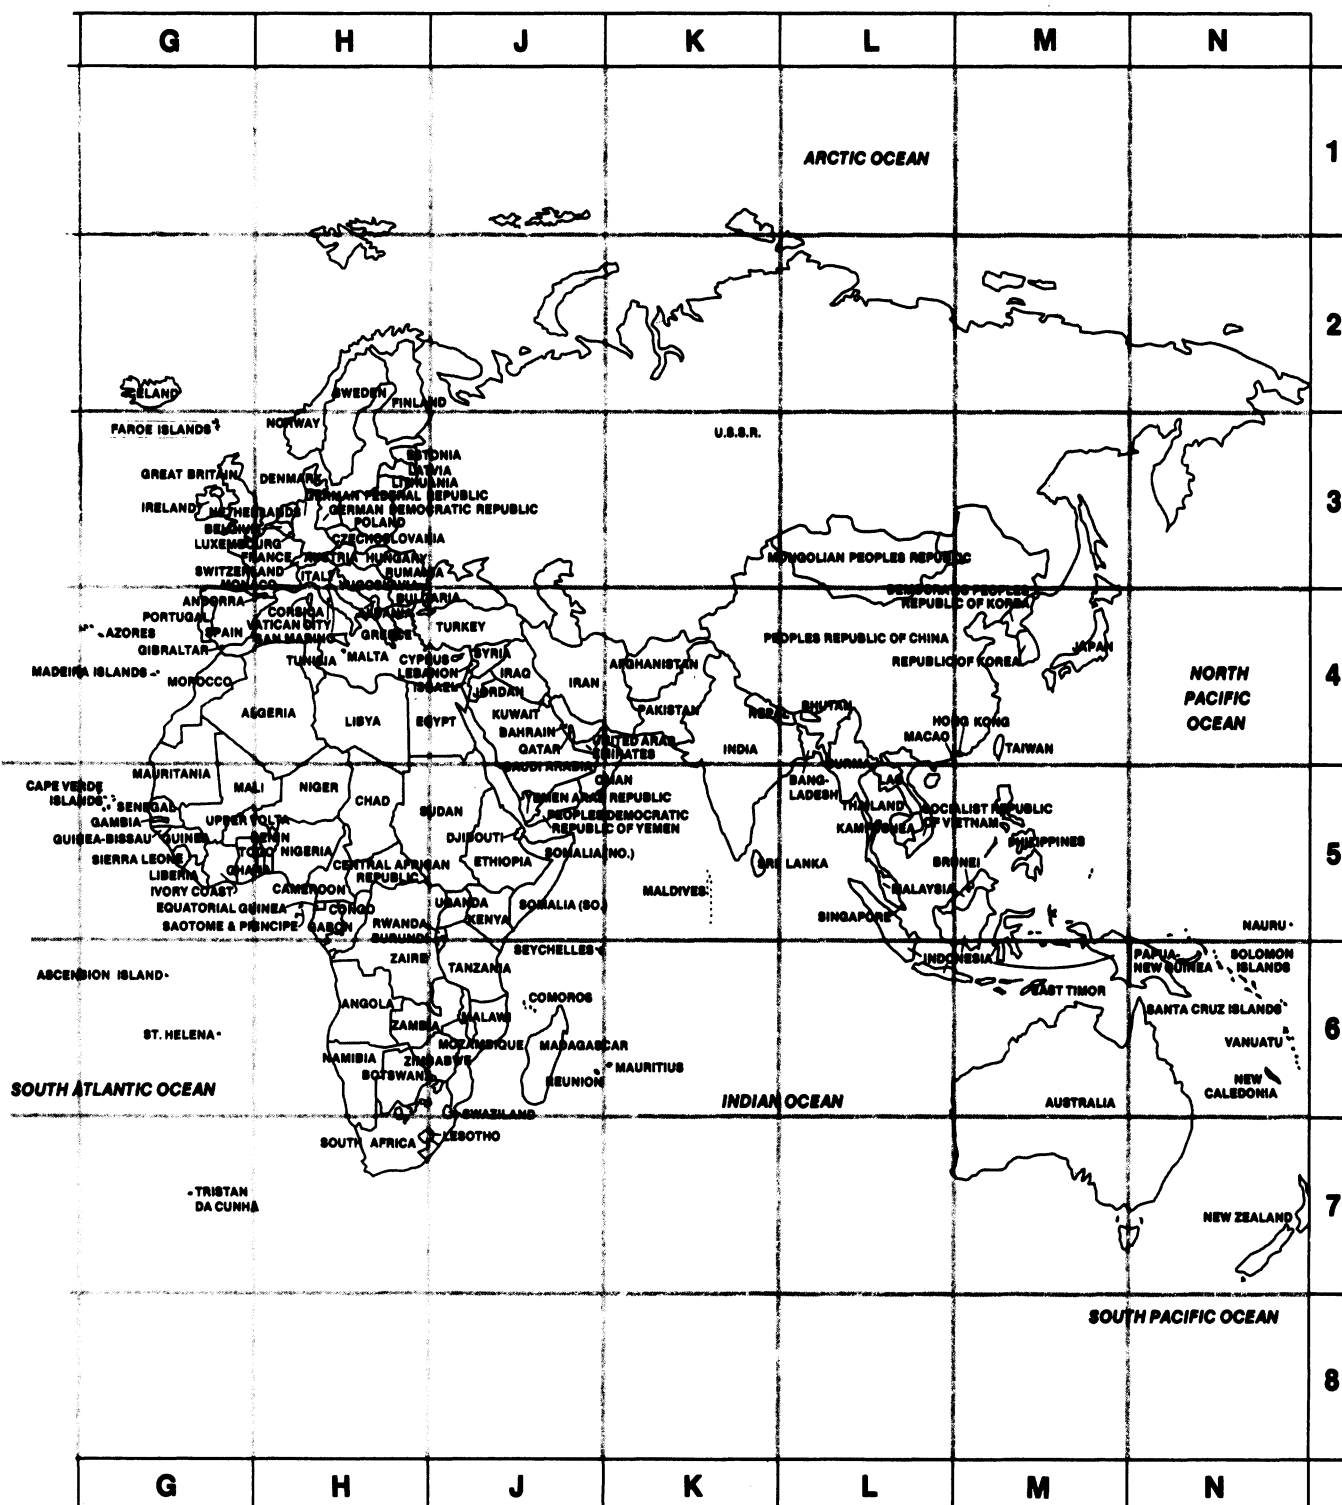

944 Processing Refund Applications

944.1 When the refund request relates to mail originating in the United States and there is no reason to believe that the other country is at fault, process the application as prescribed in DMM 147.2.

944.2 When there is reason to believe the other country is at fault, or when the request relates to mail originating in another country, forward the application with the wrapper and all supporting papers to the International Mail Classification Division, Office of Mail Classification, Rates and Classification Department, U.S.P.S. Headquarters, Washington, DC 20260-5365.

Observations

1. Argentine customs legislation stipulates that in all cases the addressee must be present to authorize the opening, checking, and customs clearance of packages. To expedite the examination of such packages, the sender should write in a suitable place on the Customs Declaration, the phrase "Peutetre Ouvert D' Office" (May Be Opened Officially), followed by his signature.

2. Each commercial parcel must be accompanied by a consular invoice in duplicate. These invoices must include a declaration signed by the seller or his representative reading: "I declare under oath that all the information given in this invoice is true and the prices indicated are those that actually have been paid (or will have to be paid). I also declare that no arrangements have been that would make possible any alterations in these prices."

The following articles do not not require consular invoices:

a. books, reviews, newspapers, printed papers and scientific and literary periodicals, on condition that no import duty is payable.

b. new or used effects or articles imported for noncommercial purposes or not of a saleable nature or value, intended for personal use or consumption and which, by reason of their quantity or type, give no grounds for thinking that they are intended for sale, and which do not exceed the value above which import duty would have to be paid.

c. goods in transit for other countries.

d. samples without saleable value (unused).

e. brochures, posters, printed papers, diaries, almanacs, negatives, photographs, films and other miscellaneous publicity articles advertising foreign goods or concerns, which are marked to prohibit their free sale.

f. spare parts and accessories for supplying or repairing foreign ships or aircraft in Argentina, if these are considered indispensable for continuing the journey.

g. costumes, properties and other belongings of visiting theatrical companies.

Restrictions

Postmaster will refuse to accept parcels containing honey bees for Canada unless they bear such endorsement. Queen bees are not subject to the above restriction. Bees must not be on combs, and must be accompanied by a declaration signed by the mailer that the food for the bees carried in the package is free from disease. Honey must not be used in making the candy placed in queen bee mailing cages. Special handling charges are applicable to honey bees in cages, but not to queen bees in small cages, alone or accompanied by a few workers, unless a considerable number of such cages are tied together for transportation outside of mail sacks. Shipments of bees are accepted only at the risk of sender; they may not be accepted for insurance.

Meat and meat food products must be accompanied by an export certificate issued by the U.S. Department of Agriculture and labeled in accordance with Canadian regulations. Exception to these requirements are: (1) bona fide sample shipments weighing less than 10 kg; (2) meat products addressed to a government department or agency; (3) meat products intended for personal consumption when they enter Canada in the possession of the importer.

Drugs and medicines must comply with Canadian law. Senders are advised to communicate with prospective addressees to assure themselves before mailing that such articles will be admitted.

Veterinary biological products including serums and vaccines must be accompanied by a permit issued by the Veterinary Director General, Ministry of Agriculture of Canada.

Eggs for hatching must be packed in new, clean containers and accompanied by a certificate issued by a veterinarian of the U.S. Department of Agriculture, or one issued by a State veterinarian and endorsed by a veterinarian of that Bureau, stating that to the best of his knowledge the eggs come from a flock that is free from Newcastle disease, fowl pest, or fowl typhoid. See 136.42 for method of packing.

Addressees are required to obtain permits from the Canadian authorities to import firearms or other deadly weapons, except sporting guns.

Observations

1. Banknotes valued at \$100 or more must be put up in compact package and securely tied with strong twine before wrapping. The wrapper must be linen or other strong, woven material, linen lined paper, or two thicknesses of strong kraft paper. After wrapping, the package must be again securely tied or stitched and sealed at the points of closing.
2. The following must not be accepted for insurance: Bees, postage stamps (cancelled and uncanceled) and albums in which they are mounted, and parcels addressed to CFPOs.
3. The name of the Canadian province in which the office of destination is located must appear as part of the address.
4. Canadian Forces Mail (CFPO) is processed through Canadian military post offices and must be addressed in the following manner:

Number, Rank, Name
Unit
CFPO (Number)
Belleville, Ont., Canada K0K 3R0

Maximum weight limits for mail addressed to member of the Canadian Armed Forces is: 22 pounds for air; 35 pounds for surface.

Parcels for CFPO addressees may not be insured. Direct sacks of printed matter (M Bags) are not permitted for CFPO addresses.

5. Cancelled or uncanceled postage stamps (Canadian, United States, or other foreign) may be enclosed in small packets and exchanged with Canada at the small packet rate.

6. Advertising matter specially prepared to promote the sale of goods or services by Canadian persons or firms is charged with customs duty in Canada when the total weight of articles mailed at one time exceeds one pound. Duty is charged on each individually addressed article. To avoid detention of such mail by Canadian customs, senders may arrange to pay the duty, which can be done by means of Canadian customs duty stamps affixed to the back of each piece of mail. Senders may inquire as to rates of duty and may purchase the duty stamps from the Department of National Revenue, Customs and Excise, Ottawa, Ont., Canada.

7. A letter fully prepaid and bearing the same address as that of the parcel may be tied or otherwise securely attached to the outside of the parcel. Stamps to cover postage on the parcel must be affixed to the wrapper of the parcel. Stamps to pay postage on the letter must be affixed to the envelope thereof.

8. Certain types of merchandise must be marked to show country of origin in the manner prescribed by the Canadian customs regulations.

9. Four (4) properly completed Canada customs invoices are required for all commercial shipments which are valued in excess of 800 Canadian dollars. Commercial shipments valued at less than 800 Canadian dollars require only a commercial invoice or other documentation supporting the value of the goods.

10. For non-commercial shipments of a casual nature, i.e., from one individual or family to another individual or family, senders need not furnish invoices, as the Canadian customs authorities will make delivery on the basis of forms completed by the addressees who may be required to supply evidence of value.

11. The Canada Customs Invoice can be obtained from stationery, office supply, or printing companies. If mailers are unable to obtain the Canada Customs Invoice locally, they should write to the following office which will apply specific names and addresses from which the invoice may be obtained:

Revenue Canada, Customs and Excise
Connaught Building
Ottawa, Ontario K1A 0L5
CANADA

Attn: Release and Documentation Systems
Data Control Programmes

12. Information on Canadian customs regulations may be obtained from the Office of International Marketing/223, Bureau of International Commerce, Department of Commerce, Washington, D.C. 20230, or any field office of that Department.

Observations

7. For parcels valued over \$20, the sender must have a copy of his commercial invoice legalized by a Colombian Consulate, and must prepare 4 copies of a consular invoice, one of which must be sent direct to the addressee with the legalized commercial invoice.
8. The addressees in Colombia are required in most cases to obtain import licenses in order to secure delivery of parcels. For a parcel exceeding \$20 in value the addressee is required to send a copy of the import license to the sender, who must submit it to the Colombian Consul when obtaining the consular invoice. If a sender receives a copy of a Colombian import license for a parcel whose value does not exceed \$20, he must return it to the addressee in Colombia.
9. Consular invoice forms may be obtained and commercial invoices legalized at Colombian Consulates, which are located in principal cities of the United States.

4. Commercial shipments valued at more than 250 francs require a commercial invoice in triplicate. No invoice is required for gift shipments, regardless of value.

Prohibitions (130)

Radioactive materials.

Arms and military equipment, except for the Indian Government.

Appliances (including pistols, pistol pencils, etc.) for discharging gas, except on behalf of the Government.

Coins or ingots exceeding 65 rupees in value, except coins obviously intended for ornament.

Articles of gold or silver.

Consumer electronic items, (except hearing aids and life-saving equipment, apparatus and appliances and parts thereof). Parcels containing these goods up to the value of 200 Indian rupees (gift value) are at present released after the words "Released on caution" have been stamped on the item.

Coins, banknotes, currency notes, traveler checks, securities payable to bearer, precious stones, jewelry and other valuable articles except in insured parcels. These articles are not permitted in registered mail.

Restrictions

Indian banknotes, require permission of the Reserve Bank of India.

Commercial shipments of tobacco, manufactured or not may only be sent to licensed importers or wholesalers.

Piece goods and certain manufactured articles must be marked to show country of origin as prescribed by the Indian trademark regulations.

Works of art (including photographs), forms ruled or printed, account and manuscript books, labels, advertising matter (except trade catalogs and circulars), almanacs in sheets or in cards, and other cards, as well as waste paper and old newspaper for packing, are not admitted as printed matter when sent as merchandise, inasmuch as they are liable to customs duty.

Addressees in India are required to obtain import licenses for all goods except those intended for their personal use and not exceeding 100 rupees in value. If the license is not obtained when required, the articles are considered as prohibited.

Observations

1. In India, a very small number of articles is admitted free of customs duty and the tariffs of these duties vary considerably. The general rate of import duty is 30 percent but many articles are liable to a higher rate.

2. Import duty is chargeable even if the articles are received as free gifts. The fact that goods are old or second-hand or gifts or articles intended for personal use does not entitle them per se to exemption from import duty. However, the collection of duty is waived in cases where the total duty on a parcel does not exceed 3 rupees. Books and magazines are generally exempt from import duty.

3. Parcels can be more speedily released if their contents and value are clearly and correctly declared by the sender.
